Dalmen win in Montreal

by Peter Dean

The Dalhousie Men's Basketball Tigers played three exhibition games in Montreal last weekend, winning two by one point.

On Friday, Roger Jones of the Tigers netted the winning basket with eight seconds left against the McGill Redmen to give the team an 86-85 upset win. Alistair MacDonald and Wes Ramseur also played key roles, scoring 25 and 26 points apiece.

Underlining the fact that it was a superb team effort were Curtis White who scored 17 points and Phil Howlett who had 12. The Redmen also had a balanced attack with Greg Faszulo, Pat Kehoe, Steve Kablo, and Gord Brabant netting 23, 21, 14, and 14 points respectively. An auspicious sign for Dal is that the

Redmen had clobbered St. F.X. 105-82 in exhibition play the previous weekend.

On Saturday, the Concordia Stingers nipped the Tigers 95-83 with strong efforts from Leon Bynoe and Joe Maguire. Ramseur with 33 and Howlett with 15 played well for Dal, but it was not enough. Sunday saw the Tigers return to the form they had shown on Friday in beating John Abbott Islanders 79-78. That game also saw strong performances from Curtis White and Alistair MacDonald who tallied 21 and 12 points respectively.

These victories augur well for the regular season. Despite the loss to Concordia, the team did put together two excellent team efforts. The Tigers travel to UNB on the 24th for the start of regular AUAA season play.

THE ADVENT/1

The Advent/1 is a brand-new speaker that replaces the famous Smaller Advent. It's Advent's redefinition of just how close you can come for fewer dollars and in a smaller cabinet, to the performance of the New Advent Loudspeaker (the latest version of this country's most popular and most imitated speaker).

The Advent/1 comes within 2 dB of the New Advent at 30 Hz. And that is the only performance difference between the two that's worth quantifying. It has the same power-handling, and its efficiency allows it to be driven well by low-power amps and receivers.

Its performance-per-dollar (and per-cubic-foot) is unsurpassed by anything we know of in speakers. The New Advent/1's \$150. each.
