*My dear Supper*

*In your letter of the 14<sup>th</sup>, you apparently complain of the course taken by the Government here with respect to the appointment or non appointment to office in Nova Scotia. For instance you say - "at present the Union party, who find that no one of its leaders has influence enough to get a side waiter appointed or to protect the local officers who supported the Government from being sacrificed, is completely paralyzed."*

*Again you say - "I have little doubt that Howe and those he can influence will join you, but they will do it all the quicker if, while you assure them of the patronage of the County when they are in a position to advise, you keep the machine in motion by standing by those who have stood by you."* - *Yours*
