

Q. Were you just down visiting the place, or were you building a place?

A. I know when I came down somebody came down for me to go back and go to work, I don't remember what I was doing.

Mr. Heap-

Q. If you were working at the house in any way when the soldiers came along it must have been your house and your place at that time, you would not be working on some other man's place, putting up a house on it?

A. I don't know. I was working there somewhere.

Q. If you were working there on your house wasn't it then your property, hadn't you then bought it?

A. It must have been my property alright, because I was not taking treaty, that was before the treaty was signed.

Commissioner- Had you your house built when the treaty was made?

A. I cannot tell that either. I don't remember.
