

### DYSPEPSIA AND RHEUMATISM.

Sherbrooke, March 30.

I have much pleasure in stating that I visited your Springs last summer (only remained about 10 days) and was much benefitted by the use of the waters, and believe there are no better waters anywhere for the cure of rheumatism and dyspepsia. Respectfully yours,  
W. R. WEBSTER.

### HEALTH-GIVING WATERS.

Bedford, March 9.

To all whom it may concern: This is to certify that I visited the noted Abenakis Springs last summer and found them a great benefit in their health-giving medical waters, also would recommend the locality for fine boating, fishing, and all kinds of outdoor sports. The proprietor of the Abenakis House is a genial, obliging and accommodating gentleman, the table first-class and terms very reasonable.

Yours truly,

C. JACKSON, Agt. C.P.R.

### RHEUMATISM CURED.

Montreal, P.Q.

For five years I have suffered with rheumatism and general debility. I visited the different mineral springs, and used their mineral waters continually, but found no relief. The best physicians were called in, their prescriptions used and their directions followed, all with no success. At last a friend of mine recommended me to the Abenakis Springs, which I tried, and found great relief after a few days. I gained rapidly, and have since kept up the Abenakis Spring Waters, and will always use them, as I have no more rheumatism and feel like newly born. I give you the privilege to publish the above for the benefit of others, and I hope it will do them as much good as it has done me. Anyone desirous of further information, I shall only be too happy to tell them what it has done for me.

Sincerely yours,

MRS. L. HARRIS.
