NAPOLEON III.

THE highest Flavored, Most Productive and Best Berry for Amateur Culture. In Growth, Flavor and Productiveness, excelling JUCUNDA, superior in Size and Quality to Dr. NICAISE, as Hardy, more Robust and almost as prolific as "Wilson's Albany," and in high delicate flavor, equal to "Triomphe de Gand."

It is superior to all strawberries we have yet seen in its strong, luxuriant, healthy foliage, which endures our hottest suns without burning or injury, and the vigorous robust habit of the plant. Price \$3 per dozen.

Descriptive circular, with testimonials of Chas. Downing, Esq., Editor "Gardener's Monthly," H. E. Hooker, Esq., President "Western New York Horticultural Society," Prof. S. B. SUMMERS' PATENT FEED MILL.

THIS Mill is unquestionably the most useful article about a farm. It is the best investment that a farmer can make who has stock to feed. The Grain chopped in this Mill will never turn sour, and is prepared in the best possible manner. It is easily digested and remains longer in the stomach, in the crushed state, than Grain crushed by any other method. The following are a few of the many

TESTIMONIALS

THAT I HAVE RECEIVED.

I greatly approve of the chopping of Mr. Summers' Mill. William Wallace. Your Mill is just the chopping we want. John Snell. I have been using your Mill for about two weeks, and I can see a great improvement in my horses. It is certainly the best mill I have seen. I save one-third of Grain by using it. Richard Bunt. This Mill is well worth the price I paid for it. 200 bushels chopped in it will go further than 300 bushels prepared in any other way. James Summerville. Your Mill is the best chopper I have seen. The Grain crushed in it goes one third further, and is much better for cattle than by any other process I have seen. Samuel Smith. I have saved over 350 bushels of grain this season by using your Mill. Joseph Croason.

Persons using this Mill can rely with the utmost confidence that they will save fully one-third of their Grain by having it chopped in this Mill. It is strongly built, and when set to work, requires no attendance but feeding in the Grain. It does the best work when fed at the rate of about 50 bushels an hour; it has, however, chopped 80 bushels per hour. Farmers can get this Mill on trial, by giving security for its safety.

G. J. BAKER

HAS invented a Machine that makes washing-day a pleasant pastime, instead of—THUMP, THUMP, SCOLD SCOLD, all the day as of old. It is pronounced the HOUSEKEEPER'S FRIEND AND UNIVERSAL FAVORITE, by all who have seen and used it. It is universally acknowledged that a good

Washing Machine

WITH A WRINGER COMBINED.

Will save two thirds of the Labor, and make the clothes last more than twice as long as those done in the old style. The reason why G. J. Baker's Patent Washing Machine is Superior to all others, is, because it washes quicker and cleaner, and makes the clothing look whiter with less muss about the house than any other Machine in existence; thereby saving more than half the labor, half the fuel, and half the soap generally used—as a child twelve or fourteen years old can do more in two hours than a woman could do in half a day in the old way. See it and try it before you buy any other kind, as it is a machine that is easily worked, and less liable to get out of order than any other Machine now in use.

FOR SALE.
