

How The Farmers Voted

We recently offered a beautiful calendar to every farmer sending us his name and address and telling us how many cows he had and what make of cream separator he owned. We received many thousand replies. Every one of these farmers told us the name of his separator. It was just as though the farmers had voted to decide which cream separator is best.

Almost Half Say Tubular

More than 41 per cent.—almost one half—of all the separators owned by these many thousand farmers are Tubular separators. There are more than twice as many Tubulars as the three leading "bucket bowl" separators combined. This absolutely proves that farmers like Sharples Tubulars best.

This is the farmers verdict. Farmers are so thoroughly convinced that Tubulars are way ahead of the very best "bucket bowl" machines that they have bought over twice as many Tubulars as they have the three leading "bucket bowl" separators combined.

You will make no mistake in buying a Tubular. The manufacture of Tubulars is one of Canada's leading industries. 1908 sales way ahead of 1907—out of sight of most, if not all, competitors combined. The fine features of Tubulars are making 1909 better yet. Write for catalog No. 193.

Tubular supply cans are low, steady, easy to fill and need not be removed to take the machine apart. The driving gears, and the ball bearing from which the bowl hangs, are enclosed, dust proof, self oiling.

Sharples Tubular Separators run so easily that the medium sizes can be turned by one who is seated.

When Writing, Mention This Paper.

Ramsay's Paints

You can't fool the men on the paint question. They know the value of a good name on a can of paint, as well as on a bank note. Ramsay's name stands for so much, because the paints have always lived up to the name. 67 years, they have been tested on all kinds of buildings, in all kinds of weather, in all parts of Canada. They have proved their worth. Ask your dealer for color card and write us for booklet, showing homes made beautiful with Ramsay's Paints.
