New Brunswick-The Woodstock, N. B. Sentinel says :- Our town at present is full of life and activity and the river is full of steamboats and timber. On Wednesday morning no less than tour boats were lying at our wharves together, - and in the even. ing the "Union" came in, making five in one day. Some little idea may be formed of the travel on the river at present when we state

that notwithstanding so many boats are running and some of them going night and day, the J. D Pierce brought up nearly 200 passengers on Thursday. New goods are also coming in very fast and new stores are being opened. The St. John Observer learns that Mr. Gill has been appointed Chief Engineer of the E. & N. A. Railway, for New-Brunswick, in place of Mr. Beattie, and that he may be expected by the steamer of the 14th May. This gentleman is said to be an engineer of great ability, in whom

Messrs. Brassey & Co, have every confidence.

The Observer also states that sixty-eight yessel from foreign ports arrived at the port of St. John between the 7th and 17th inst., viz:-17 ships, 14 barques, 5 brigs, 14 brigantines, 18 schooners -40 of which brought cargoes. During same period, 64 coasting vessels arrived, with various produce and lumber. Total 132 vessels, amount ing to 23,000 tons. Expecting from the severity of the collison that the M. E. would go down, we went on board the ship taking nothing with us. After daylight saw the wreck (the ship having lain by) and went on board, when I fourd the masts gone by the deck—jib-boom gone—bowsprit support aprang—stanucheons and side of vessel, where the concussion occurred, broken in—sails except foresail torn away—shrouds broken Was kindly supplied by the captain of the ship with a boat (our own having been broken) I determined to remain by the wreck, but the wind having sprung up from the North, and seeing no hopes of reaching land in our disabled state, after consultation with the crew, determined to leave, and reached the Island after pulling 25 miles."

"STAR" LIFE ASSURANCE SOCIETY CHIEF OFFICE.

No. 48, Moorgate Street, London. CAPITAL, £100,000. THIS Office combines all that is desirable in the war and Proprietary schemes, and says, in few words, to the Public—"Whilst we are part for the use of our capital, given as a guarantee that your amount insured shall be duly paid at the time of determination, yet we will divide the advantage gained on the masy of our business, if any, with the assured, by whose funds it has been realized: If there be lose on the mass, from whatever cause, our capital shall be exhausted before the Policies shall be depreciated."
But this liberality does not go equal lengths in all
Companies; whilst one Company will give one-third part
of its profits to the policy-holder, ar other will give one
half; others two-thirds, &c. The "Srag," however, appropriates nine-tenths of its profits to the policy-holders.

Bonus Declared up to December, 1848. an Inspection of the Scale of Bonus added to Policies of five years' duration will at once establish the claim of this Society to public support; and a comparison of the results with those obtained by any similar instituted is invited.
