

SIMPLE MACHINES FOR WISE FOLKS.

THE NEW IMPROVED DE LAVAL SEPARATOR

is so simple that only one tool is required to entirely remove its few parts and reassemble them—it requires no expert. The neck bearing can be removed and replaced by the merest novice and centers itself automatically. The spindleless bowl cannot be injured in removing it from or replacing it in the frame, and it is impossible to throw it out of balance or cause it to vibrate in ordinary or extraordinary use. Every part of the machine is made as accurately as a watch and in operation it is practically noiseless. It is the housewife's machine, beautiful in design, perfect in construction and infinitely simpler than her sewing machine. It pays for itself.
