Brighten Up! Clean Up!

Sun varnish stains are especially prepared for staining and varnishing furniture and woodwork. These stains are made from the most durable varnish, thoroughly combined with pigments that retain their color and brilliancy owing to their good wearing qualities, they are well adapted for interior woodwork, floors furniture, cupboards, chairs, picture frames, etc. The materials used in the manufacture of Sun varnish stains render them very hard, yet elastic, which enables them to with stand the wear and tear without readily showing mars and scratches.
