CLEVELAND WOMAN SHOOT HUSBAND

BELIEVED SHE HAD BUT THREE
DAYS TO LIVE AND DIDN'T
WANT TO LEAVE HIM.

By Associated Press.

CLEVELAND, March 25.—Believing she had only three days to live and fearing to die and leave her husband, Mrs. Chas. Avery of 1811 Superior Avenue, N.W., shot him twice to-night with a revolver, inflicting fatal wounds. Mrs. Avery has been suffering from a cancer for years. Six months ago she was operated upon but only temporary relief followed. Several days ago a specialist declared she was past help, death being only a matter of days. Since then she has been despondent. To-night when her husband came to their apartments, she was lying down seemingly asleep. While he was searching through her drawers, she arose up behind him and shot twice. The nurse was in the room but was unable to prevent the deed. The woman was at the first shot, which struck him in the back, and grappled with his wife. A second shot cut through his wrist. The woman avowed at the second shot, and when she recovered consciousness, Avery was in Layside Hospital. The physicians have been unable to locate the bullet.

NEW LIGHT ON ROBBERY.

Postoffice at Blenifait Riddled to Secure
Valuable Letters.

WYBURN, March 4.—While Messrs. MILLIGAN & Watt, of the Blenifait post office store were away last Christmas enjoying the season's good cheer, their premises were invaded by burglars whose sole object of plunder seemed to be the post office. A careful search by the police, which returned showed that even in the post office the thieves used peculiar discrimination, taking only the unopened letters and leaving untouched packages that were certain to contain treasure of one sort or another. No trace of the thieves was found, but letters having been found since, it was supposed that the burglary might have been committed by a jealous lover seeking to intercept the love missives of his rival. The incident has long ceased to be a topic of talk in the eastern village, but new interest in the affair has been awakened by the receipt of an enquiry from the police of Moose Jaw received by Sgt. Lett the other day. The letter, which enclosed the photo of a hard-looking character, asks if any information concerning the suspect can be obtained in this neighborhood. The man was arrested on the 16th February for aiding another man in cashing a draft on the Union Bank payable to William Overfield. On receipt of the inquiry, Sgt. Lett at once recalled the Blenifait incident, and found on inquiry that William Overfield, who had been expecting the receipt of a remittance from the Great West Life Co. of \$354, the amount of the cheque cashed by the suspect at Moose Jaw. An official of the bank has been down to Blenifait to gather evidence against the prisoner and to be up for trial at the next sitting of the Supreme Court. The prisoner, who gives his name as Robert Burns, is now working in the railway yards at Moose Jaw when arrested. He can give no clear records of his doings on Christmas day. The man who actually cashed the cheque has not yet been gathered in, but it is expected that he will be located before long, and that having been secured, the Christmas robbery will be solved.

Burton Free Again.

THERE WAS AN UNDERSTANDING

COAST AND MOUNTAIN MILLS
HAD ARRANGEMENT FOR
MAINTAINING PRICES.

Special to The Leader.

OTTAWA, March 25.—L. A. Lewis of New Westminster, B.C., was examined before the lumber inquiry committee today. He said a special auditor was appointed to examine the books of the Coast and Mountain Mills Association in an effort to maintain prices. When an increase was ordered by the Coast Association the Mountain Mills were asked to maintain that price. Mr. Lewis stated that when Mr. Heaps informed the committee that there was no understanding that they should make a price list and stick to it. He said the committee did not want to keep up the price when it was not until the demand became greater than the supply that the prices were maintained. Even after an official auditor was appointed and everything had been done to keep up the prices some of the firms were charging too much for the lumber.

NO WOMAN SUFFRAGE.

Oklahoma Constitution Committee
Refuse to Accept Clause.

GUTHRIE, Okla., March 23.—The constitutional convention today con-

cluding its work of drawing up a set of laws to govern the proposed new State of Oklahoma, adjourned sine die Friday.

The constitution as prepared will be submitted to the people of Oklahoma and Indian Territory for ratification or rejection at a special election August 6 next.

The convention was composed of 100 Democrats and 12 Republicans, and was in session 115 days.

Among the converts at the Salvation Army meetings that have been conducted here for several weeks is a young man who a year or so ago stole a number of articles from a merchant on Central Avenue. Yesterday he was surprised at the confession of the lad, who returned several articles he had taken; insisted on paying for others, and said he was still in debt to the storekeeper, but that he would repay him in full this month.

FOUR DAY ENGINE FOR THE ATLANTIC

LEWIS NIXON ANNOUNCES IN-
VENTION TO SHORTEN
OCEAN TRIP.

NEW YORK, N. Y., March 25.—At a dinner on Saturday night in the West End Hotel, in Tottenham, Staten Island, given by C. G. Kolt to a group of friends and residents of the place, Lewis Nixon made first announcement of a large manufacturing establishment he is soon to establish in Tottenham, and added that one of the first products of the plant would be an engine that would drive a large ship across the Atlantic in four days.

He said the plans and patents for the arrangements had been made to place it in one of the largest ships afloat. The concern is to be known as the Motor Construction Company and will be confined chiefly to the building of marine engines.

Concerning the engine, he said there was no longer any question that it would drive the ship across the ocean in four days, and that other engines of the type would be constructed as rapidly as possible, if the test of the first proved all that was hoped for it.

Mr. Nixon said the ship would be fitted with 6,000 horse power for each of the six engines.

The engine, he said, would be of the standard type gas engine, using as fuel gas made from crude petroleum, and each of the six engines will be double acting and reversible.

"When I completed experiments with this engine," he said, "and proved beyond doubt its entire practicability, I intended to build only the engine, but have decided now to build the ship, too, and fit it with these engines."

"I have built every other kind of steamship about the world, but the last I want to build a vessel which can cross the Atlantic in four days, and I am going to do it."

The plant, which will employ one thousand men, will cover four acres, and its original cost will be \$400,000.

SEATTLE LOCK-OUT MAKES 2,000 IDLE

MASTER BUILDERS DISCHARGE
UNION MEN ON ACCOUNT OF
ANNOYING DEMANDS.

SEATTLE, March 23.—Thursday night saw a lockout against union labor when twenty-five members of the Master Builders' association paid off their men, and the laborers threw out of employment number close to 2,000, and construction work on sixty buildings is at a standstill.

The constant annoyance of petty demands by union men is given as the cause of the lockout. The union will probably go half way in a compromise with the master builders, not wishing to see a suspension of building operations.

in Mercantile Marine.

BERLIN, March 24.—German shipping and commercial circles are full of a fever of delight at the extraordinary progress which their overseas shipping has been recently making. A few years more of such progress, they say, and the maritime supremacy of Britain will begin to be called in question.
