

MASSACRE OF JEWS

Follows Throwing of Bomb by Anarchists.

The Military Unable to Repress Rioters.

Crowd of Jews Fled to Railroad Station Pursued by Mob.

Bialistok, Russia, June 18.—A Jewish Anarchist threw a bomb among the Corpus Christi procession, which was in progress here to-day, and killed or wounded many persons.

The bomb was thrown from the balcony of a house in Alexandrov street. A Russian clergyman named Fedoroff was among the killed by the explosion. After the explosion the Jews began to flee with revolvers from the windows of the house into the crowd.

Outbreak Deliberately Planned. The signal for the outbreak, which was apparently deliberately planned, perhaps a counter-stroke for the murder of Chief of Police Derkatchief on June 10, was attributed to Jewish Bundists, and is given as the explanation of the explosion of a bomb during a religious procession.

Finally the military interfered, but according to advices received here without being able to restore order. Reinforcements had been rushed to Bialistok from Grodno.

St. Petersburg, June 18.—The press is unanimous in its profound pessimism over yesterday's events in the Lower House of Parliament. The situation is strained to the breaking point.

FOR HIS HEALTH. No Political Significance in Pope's Projected Trip. Rome, June 18.—The Observatore Cattolico, of Milan, the leading authoritative organ of the Vatican, commenting upon the usual rumors that the Pope intends to spend the summer months at Castel Gandolfo, affirms that if the Pope actually does leave the Vatican and goes to his country seat at Castel Gandolfo, which is also Papal territory, the fact will not constitute a renunciation of the rights of Rome nor an acceptance of the Kingdom of Italy.

It concludes with this significant statement: "The passage of years does not alter any rights, but modifies the situation. Hence the fact, which ten years ago would have had only one meaning, can be differently interpreted now. If the Pope, following his doctor's orders, goes to Castel Gandolfo, thus safeguarding his health in the interest of the church, his position remains unchanged."

STUART GUILTY. PERPETRATED MURDEROUS ASSAULT ON SYDENHAM FARMER. Fired Three Shots at Man, One of Which Shattered Eyeball and Leaves Sight Permanently Affected—Admits Robbing T. E. Vanstone's Store.

Owen Sound despatch: At 11 o'clock to-night, after having been out almost an hour, the jury brought in a verdict of guilty in the case against Albert Stuart, who was charged with wounding Mr. James Morrison by means of a revolver while he was on his way home from here on the night of the 21st of February last.

As he turned a second shot was fired, which pierced his nose and shattered the right eyeball. He had partly fallen, and as he rose a third bullet cut the shoulder of his coat.

HOW DOES A MOSQUITO BITE YOU?

She Carries a Set of Lancets, and Her "Bite" is in Reality a Surgical Operation.

Perhaps up to this time you have been content to be bitten by Miss Mosquito—for only the female mosquito bites—and have never taken the trouble to find out how she does it. Sketch No. 1 will show you how the mosquito's head looks when greatly magnified. A to E are four sharp lancets.

Upon settling on your skin, Miss Mosquito brings these lancets into one close bunch and presses their united points through your skin. Then she pulls out the lancets, puts in her proboscis, or trunk (D), and sucks up the blood. Not content with that, she inserts a drop of an irritating fluid, and it is this that causes the itching and itching.

Therefore, that every mosquito bite is in reality a small cut, and that into every drop of your blood is injected a drop of a poisonous fluid. Here is just what the value of Zam-Buk is easily demonstrated.

Zam-Buk is not only a healing balm, which soothes, closes up and heals cuts, wounds, etc., in a remarkably short time; but it is also an antiseptic. Why harm may poison in a wound do? It is well known that mosquitoes spread fever by injecting their poison! Zam-Buk is good for insect stings, but it is good in a far wider sense. It prevents harm arising from poison in any wound, not only in the bites or stings of insects.

After a long series of experiments, testing the effects of Zam-Buk on harmful and poisonous bacteria and disease germs, Mr. W. Lancelotti, the noted analyst, reported that "the antiseptic and bactericidal powers of Zam-Buk exceed those of the caustic carbolic acid of commerce." This is what that means! Everybody knows that crude carbolic acid will kill every disease germ with which it is brought in contact.

But nobody would dream of putting this powerful irritant on to a wound or sore. Yet Zam-Buk has more power to kill germs than this highly caustic substance, and still it can be applied to wounds, ulcers, bites, stings and skin diseases, and injuries of all kinds. When so applied it soothes the pain, while its antiseptic powers are in full operation. It stimulates the cells immediately under the epidermis and builds up new, healthy skin.

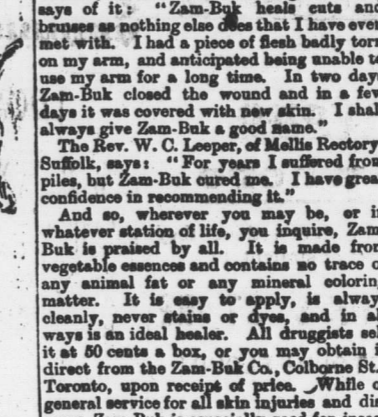

It combines germ-killing power of the highest order with soothing and healing. While being one of the most powerful antiseptics yet discovered, it is so mild and so soothing that the skin of a newly born babe is benefited by its application.

My baby had a rash on the skin some-thing like eczema, writes Mrs. J. Resnor, of Aurora. It was very troublesome and made the child very ill. I tried all sorts of ointments and salves, but no good came of their use. Then Zam-Buk was brought to me and the third supply cured the little one completely.

"I never saw anything heal so quickly in my life as a deep cut on my husband's chin healed when we applied Zam-Buk," says Mrs. H. T. Parks, of Washago, Ont. Mrs. J. F. Baker, of Aultsville, says: "I think Zam-Buk just fine for skin diseases. Having once proved it, I would not be without it in the house." The ex-champion wrestler of America, Mr. Hugh Lannon, says of it: "Zam-Buk heals cuts and bruises as nothing else does that I have ever met with. I had a piece of flesh badly torn on my arm, and anticipated being unable to use my arm for a long time. In two days Zam-Buk closed the wound and in a few days it was covered with new skin. I shall always give Zam-Buk a good name."

The Rev. W. C. Leeper, of Mollis Rectory, Suffolk, says: "For years I suffered from piles, but Zam-Buk cured me. I have great confidence in recommending it." And so, wherever you may be, or in whatever station of life, you inquire, Zam-Buk is praised by all. It is made from vegetable essences and contains no trace of any animal fat or any mineral coloring matter. It is easy to apply, is always clean, never stains or dyes, and in all ways is a real blessing. All druggists sell it at 50 cents a box, or you may obtain it direct from the Zam-Buk Co., Colborne St., Toronto, upon receipt of price. While of general service for all skin injuries and diseases, Zam-Buk is especially good for insect bites and stings, cuts, burns, bruises, eczema, pimples, running sores, spreading scabs, scalds, discharges, poisonous sores, ulcers, bad legs, abscesses, bad ringworms, erysipelas, scrofula, psoriasis, barbers' rash, stiffness, rheumatism, and all injured, chafed, diseased or inflamed conditions of skin and tissue.

FOUND BODY IN OLD WELL.

Searching for the Murderer of an Aged Basket Maker.

New Canada, Conn., June 18.—A number of deputy sheriffs and detectives to-day started out on a hunt for the murderer of Zelik Dann, the aged basket maker, whose mutilated body was found in an old well on his place yesterday. It is said that a man living in this town is under suspicion of having murdered Dann, and he will be watched closely. Certain facts which the county authorities have learned since the finding of the body point to this man as knowing something about the death of Dann, but whether there will be an arrest to-day is not known.

VICTIM OF A TRAMP. Deaf and Dumb Youth of Dereham Relates Strange Experience. A St. Thomas, Ont., despatch: Charles French, deaf and dumb, who was missing from his home on the seventh concession of Dereham from Sunday morning until Monday afternoon, tells a remarkable story. He claims that while strolling through the woods on the farm of his father he was seized by a tramp. Two dollars which he had in his pocket were taken from him and he was led by a strap and led through the woods to within a short distance of Courtland. Here he was tied to a tree and left to free himself. After a considerable time he managed to free himself, and, not knowing where he was, walked until he struck Tilsonburg, and then continued on home. He was without food all the time from Sunday noon until Monday afternoon. The distance he claims to have walked is about 30 miles.

BOMB KILLED THIRTY-THREE. Result of Attempt at Assassination of King Alfonso. Madrid, June 18.—An official report states that 33 deaths resulted from the throwing of a bomb by the Anarchist Moral on the occasion of King Alfonso's wedding. Ninety of the persons injured are now likely to recover. The Government has appointed a special commission to ascertain the source of a fund of \$100,000, which, it is alleged, was placed at Moral's disposal for the purpose of assassinating the king. Six Anarchists have been arrested at Barcelona for publishing a letter congratulating Editor Nakens, of El Motin, for hiding Moral after his attempt on the life of the king.

BIG ORDER FOR RAILS. Grand Trunk Pacific Buys Whit It Wants in Canada. Montreal, June 18.—The Dominion Iron & Steel Company have just received an order for 150,000 tons of steel rails from the Grand Trunk Pacific Railway Company. Recently they contracted with the Montreal Street Railway Company to deliver 20,000 tons, and they have an order also to deliver about 30,000 tons for the eastern section of the National Transcontinental Railway. Their new orders, therefore, total to date about 200,000 tons. It is said that the price to be paid by the Grand Trunk Pacific Company is \$33 a ton.

LIMITATION OF ARMAMENTS. Italy Will Support Initiative Taken by Great Britain. Rome, June 18.—In reply to a question in the Chamber of Deputies to-day, Signor Tittoni, Minister of Foreign Affairs, said that although it would be madness for Italy to disarm amid powerfully armed Europe, the Government would cordially support any initiative taken by Great Britain at the Hague Conference toward the limitation of armaments. This statement evoked loud applause. Continuing, Signor Tittoni said that meanwhile the best method to prevent war was to resolutely discountenance irresponsible efforts to sow discord between Austria and Italy.
