Here and There

A rich strike of silver lead ore has been made on Galea Hill, Yukon Territory. One vein is eight feet in width and shows 70 per cent lead with 30 to 50 ounces of silver. Several big mining interests are reported as active in this area.

The manufacture of wooden boxes is an important industry in British Columbia. There are 25 box-making plants in the province, representing a capital of between \$1,000,000 and \$4,000,000, about 1,200 employees and an annual payroll of not less than \$1,250,000.

So popular has the bungalow camp system established by the Canadian Pacific Railway become that it will be necessary to extend it greatly. This statement was made recently by C. B. Foster, Passenger Traffic Manager, after a visit to the hotels and camps in the Rockies.

That the farmers of Western Canada are now giving increasing attention to the improvement of their home surroundings is shown by the fact that they have not only planted 5,000,000 trees distributed by two government forestry stations this year but have also purchased large quantities from private nurseries.

Summer fishing commenced on Lac Seul Lake on July 28th and will close September 30th. Operators have been limited to a catch of 1,500,000 pounds of whitefish but no limit has been placed on pickerel and jack fish, as the market for these varieties is restricted. Four fish companies are operating this summer and will ship to Chicago via Dominion Express.

Imports of Canadian produce and manufacture into Australia received during the year ended June 30th, 1924, amounted in value to \$5,064,253, an expansion of \$1,899,000 over the previous year. It is the largest volume of trade yet reported between Canada and Australia. The greatest increase was in motor chassis though a good volume of trade was also done in lumber goods, boots and shoes.

What is claimed to be a world's record for relaying rails was established by a crew of men on the Canadian Pacific Railway, in the New Brunswick district recently. In two days the 220 men in the gang tore up 29.7 miles of old 85-lb. rails and replaced them with new. All available data states that the former Canadian record was 11.7 miles, which exceeds that established in the United States.

The "Empress of Scotland," one of the Canadian Pacific Railway's finest liners, docked at Quebec on August 8th with a passenger list crowded with important names. Among them were Lord Beaverbrook, the Canadian financier, Edward W. Bok, editor of the Ladies' Home Journal, whose offer of a fifty thousand dollar prize for the best plan tending to maintain world peace created so much interest recently, and E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway. Mr. Beatty had just concluded a most successful tour of Europe with the object of attracting capital and immigrants to Canada. He spoke with great enthusiasm of the prospects of obtaining both and especially anticipated an influx of fine new Canadian immigrants from Denmark.

FATALITY AT STARR'S POINT

The Sunday School picnic from Canning, which started under most favorable circumstances, was brought to a sad ending at noon on Friday, 29th inst., by the tragic end of a young life.

About noon the boys were swimming, the larger ones being well around the point beyond the Sugar Loaf so called.

Willard Kinsman, aged sixteen, and Whitney Spicer, aged twelve, reached the Loaf and started back for the bluff opposite. When about twenty feet from shore young Spicer felt himself clutched by Kinsman and was only able to clear himself by frantic effort.

On reaching the shore he found his companion gone. Norman King from the shore tried to attract the boys farther out, but apparently they misinterpreted his cries and no one came to the rescue.

James Sutton, who is a swimming instructor, was finally notified at Mr. Geo. Starr's home and diving recovered the body some thirty minutes after sinking in nine feet of water. Dr. Gosse, who had rushed from Canning, tried to resuscitate the boy but was too late. The deceased was the second son of Mr. and Mrs. Earnest Kinsman, of Hillaton, to whom the sympathy of all goes out.

The funeral was held from the Methodist church, Canning, at 2:30 p.m. Sunday, being conducted by the Rev. A. C. Borden, assisted by Rev. J. Aspbury and Rev. Heiler. A capacity audience of sorrowing friends listened to an exceptionally impressive address from Psalm 46: "Be Still, and know that I am God." Interment was at Cemetery at Hillaton.

Mrs. Ward is to be congratulated upon the success of her Mission Band. Every part was well rendered.

EATON-THOMSON

A wedding of unusual interest took place on Thursday, August 28, at 3 o'clock p.m., when Elsie, daughter of Mr. and Mrs. James Thomson, Hillaton, became the bride of Ned Eaton, Boston, son of Mr. and Mrs. Walter Eaton, Lower Canard. The bride, who looked charming in a gown of white brocade crepe with conventional veil caught by clusters of white heather (which was sent from Scotland by relatives), carrying a sheath of gladiolus, was given away by her father. The bridesmaid, Miss Mary Thomson, sister of the bride, wore a gown of burnt orange crepe; the bride's mother a black silk tricotette, with hat to match.

The groom was supported by his cousin, Mr. Eben Eaton, Boston.

The ceremony was performed by Rev. James F. McCurdy, Quebec, on the lawn beneath an arch of golden rod, golden glow, and ferns. The double ring service was used. The wedding march was played by Mrs. Arthur Dickie.

Refreshments were served to about forty guests, when the bride and groom received congratulations. The groom's present to the bride was a substantial cheque, to the bridesmaid a ring. The gifts were beautiful and many cheques were received.

The bride's travelling suit was gray plaid Scotch tweed, with hat to match.

YES-They all know you're in business

That is, they did know—you have told them so in times past—but do they all remember it? We all know that Ivory Soap floats, and that Royal Baking Powder is absolutely pure, and that children cry for Castoria and the kind of soap that makes a skin you like to touch, etc., etc.—and we're not going to forget about them for a minute, because the manufacturers spend millions of dollars a year telling us about them, day by day, and week by week, and month by month. They take no chances on being forgotten. How about your business? Isn't it just as important that you be kept in mind by the buying public in your territory as it is to the national advertiser that his product be remembered? You can cover your trade territory more easily, more cheaply in proportion, and more thoroughly than the national advertiser can cover the whole country. But you've got to keep it up to get the results that he gets. And you can't expect to advertise in flush times and live on the memory of it when you're hard up.
