PILGRIMS LIONIZE KITCHENER.

Special to Evening Telegram.

NEW YORK, April 19.—The greatest living soldier in the world was the tribute paid by Joseph H. Choate to Lord Kitchener at the dinner given in his honor by the Pilgrims at the Waldorf Astoria. More than 450 distinguished guests lionized the British hero. Lord Kitchener, in his reply praised the U. S. Military Academy at West Point and referred to the recent Globe circling voyage of the Atlantic Fleet as a great peace promoting event. Two members of President Taft's Cabinet voiced the President's regret at being unable to meet the distinguished visitor. Lord Kitchener said in part: "I have recently been in Australia and naturally heard there a great deal about the visit of the American Fleet. What seems to have struck everyone in the Commonwealth was not only the great courtesy and goodwill of the Admiral and his officers, but also the good behaviour and smartness and preparedness for war of the men and ships of the fleet. A few months ago I recommended that the Australian and New Zealand Governments take West Point as the model of the Military College they require, and I hope the ideal I have thus placed before them will not appear to them unattainable." A cable from Lord Roberts, President of the British Pilgrims, was read by Mr. Choate.

The Chancellor commented upon the remarkable decrease of 32 per cent. in the consumption of whiskey, which decrease he attributed mainly to the extra duty imposed. The loss in the revenue from spirits as compared with the estimated figures was fourteen million dollars.

Big Deal in Pulp Limits on Labrador.

Yesterday a big deal involving a quarter of million dollars was concluded by R. W. Strong, and timber rents to the amount of \$55,412 were paid in a lump sum to the Crown Lands Department.

Mr. Strong has been negotiating since last November a deal with a company of twelve New York capitalists for the sale of 13,850 square miles of timber land on Labrador extending from Byron's Bay, North Side of Hamilton Inlet, to Port Manners. Mr. Strong who has two other partners with him in this property sold out their rights to the New York men for a quarter of a million dollars and 49 per cent. of the proceeds of the industry in future.

The company of which Mr. C. D. Stanford, of Bangor, Maine, is a prominent member, will be capitalized at \$25,000,000, and will proceed to the work of development of the property about the latter part of May. The intention is to erect there pulp mills at the most convenient points on that stretch of coast where the timber limits are situated. They will manufacture pulp and export to England and America. It is contemplated that exportation will be carried on at least six months of the year. Of course the work of manufacturing can be carried on all the year round.

Mr. R. W. Strong will leave St. John's about the 20th of May if conditions permit, taking a party of about 40 men including four surveyors, axmen and chainmen. The survey party will work there all summer. When the job is well under way Mr. Strong will leave a man in charge and return in July to attend the Festival of Empire.

This undertaking when properly started will mean permanent employment of thousands of men. We congratulate Mr. Strong on the success of this enterprise, for to him is due great credit for having worked it out to the present successful issue. Besides the big pulp deal he has even a bigger undertaking in view and he hopes to be able to establish it in a short time. In fact the money, \$750,000, is now only waiting a cablegram from him to be in order to be put into the undertaking referred to. We hope to be able to give the public particulars about this second undertaking before long.

Narrowly Escaped From Drowning.

When the schr. Ena Carter was cut down by another vessel about 10 days ago, both Owen and Charles Doherty (brothers) and two of the crew of the Carter narrowly escaped drowning. Charles was asleep in his berth, and as the vessel sunk a few minutes after the collision the rest of the crew in the excitement of getting away overlooked him. At the last moment his brother, Owen, bethought himself of Charles, and dived through the water into the forecastle and found him covered with water and drowning in his berth. It was a terrible struggle to get him up, but with the aid of the others this was accomplished. Charles was unconscious and it was some time before he recovered. If left a few minutes longer he would have perished. Owen was also very much exhausted.

It is the intention to hold sales in the Board of Trade Rooms in future.

Held Up a Train.

A special train came up last night from Placentia with a gang of laborers on board. They had been at work on a local boat there and on arrival at Brigus Junction the train was being shunted on to a siding, as the conductor, who was going according to orders from headquarters, had some business to do there. The men did not want this but required the conductor to proceed, and on his refusal to do so forcibly took charge of the train. While the row was on and excitement at its highest another train came up, and with the assistance of the officials, of the new arrival peace was restored and the conductor of the first train was enabled to do his work. The ringleader in the affair will be summoned.
