WHAT a glorious country is the East, where they have no such thrilling winds, and cold stormy blasts, to wreck the constitution. But yet, although the climate here is ordered thus, Nature has kindly endowed mankind with the conquering power of wielding an sufficient weapon against the enemy Disease. Diseases of the Throat, Lungs, Liver, Kidneys, Digestive Organs, &c., are here most prevalent, and for their cure we have nothing to compete with the great Swiss once's Remedy. Oct 3-1m

Purify the Blood—If the blood be pure the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any impurity, such as a boil or pimple, or even a bruise, the blood circulates through that part takes up impure matters from the local affection and carries it to the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the blood vessels which supply the brain with vitality, and life ceases as if

COUGHS AND COLDS.

Sudden changes of climate are sources of Pulmonary, Bronchial and Asthmatic affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should be at once had to "Brown's Bronchial Troches," or Lozenges. Few are aware of the importance of checking a cough, or "common cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "Brown's Bronchial Troches," or Cough Lozenges, allay irritation which induces coughing, having a direct influence on the affected parts. As there are imitations, be sure to obtain the genuine. Sold by all dealers in medicine at 25 cents a box.

Mothers! Mothers! Mothers!

FARM FOR SALE.

THE subscriber offers for sale a first-class farm, being Lot No. 8, East half 3rd Con., Township of Erin, containing 160 acres, from 75 to 80 of which are cleared, and, with the exception of about 10 acres, free of stumps. This farm is well fenced, and in a high state of cultivation.—There is a never-failing creek and a good well and pump on the premises; also, a never-failing creek runs across the Concession about 1/2 m. from the corner of the lot. There are two good barns, a log 30 x 60 and a frame 36 x 60—and a good log house 30 x 30 feet, with a back kitchen and a frame stoop, four bed rooms, &c. Also, a good young orchard of choice fruit trees, many of them bearing. This farm is about five miles from Acton Station, and about a mile and a half from the Erin gravel road. The farm will be sold on liberal terms, and a good title given. For further particulars apply personally, or by letter (post-paid) to the subscriber, on the premises.

Love's Limit.

I'd swear for her, I'd tear for her, The Lord knows what I'd bear for her; I'd lie for her, I'd sigh for her, I'd drink Big Muddy dry for her; I'd "cuss" for her, Do "wuss" for her, I'd kick up a hundred fuss for her; I'd weep for her, I'd leap for her, I'd go without my sleep for her; I'd sleep for her, I'd kiss for her, I'd walk the streets all night for her; I'd plead for her, I'd bleed for her, I'd go without my "feed" for her; I'd shoot for her, I'd hold for her, I'd rival who'd come to "suit" for her; I'd kneel for her, I'd deal for her, Such is the love I feel for her; I'd slide for her, I'd glide for her, I'd swim against wind and tide for her; I'd try for her, I'd cry for her, But—hang me for her. LECTURE SEASON.—The Toronto Telegraph understands that the ensuing lecture season, Hon. T. D. McGeer will deliver a lecture before the Mechanics' Institute, of Toronto, on the following subject:—"Revolutions in English Literature."

A new feature is about to be introduced into New York Journalism. It is to be a critique of all the clergymen of any note in the metropolis. Their matter and manner are to be coldly and impartially judged as they would be if they were actors. Elocution, pronunciation, gestures, style, everything will be noticed.

The Leader says that Toronto wants an Opera House and must have one. Our cotemporary says that Detroit, not much larger than Toronto, is now engaged in getting into shape an opera house company with a capital of \$130,000, and that it believes \$35,000 would erect and neatly furnish such a building as is required in Toronto.

Curran was engaged in a legal argument. Behind him stood his colleague, a gentleman whose person was remarkably tall and slender, and who had originally intended to take orders. THE ACADIAN POPULATION.—The French of Nova Scotia have, it seems, been increasing in number with a rapidity. The ratio of increase, without the aid of immigration, has been 40 per cent. in ten years; whereas the whole population of the counties where they reside has only increased at the rate of 24 per cent. in the same time. French statisticians therefore think that, with an immigration of French Canadians, the French element will soon preponderate in some of the counties of Nova Scotia.

The tone of the American press is not reassuring. Journals usually calm and reserved in the expression of their opinions do not hesitate to speak doubtfully of the future peace of the country. No nation ever passed through the stirring scenes which rendered the battle scenes of this continent so fearfully elaborated, and attained repose at one bound. The passions of millions cannot be violently agitated and harmonized into repose within a few months. There must be periods of reaction, and ebb and flow of the current of public opinion. We hold too high an idea of the intelligence of the American people to doubt their capacity to surmount grave troubles. A squabble between a President and a Congress may be a novelty, but another year will place new actors on the stage.

FRIDAY EVENING, OCTOBER 4.

Local News.

We understand that it is contemplated to organize a Literary Society for Milton, to engage the attention of young men during the winter months.

Yesterday morning an engine, to which was attached a heavy freight train ran off the track on the Grand Trunk Railway, when a few rods east of the Berlin station smashing the cow-catcher, but fortunately sustaining no other damage.

MANSLAUGHTER.—Mason, the coloured man, who killed his wife in London, was tried on Wednesday last, found guilty of manslaughter, but recommended to mercy. He was sentenced to six months imprisonment in the common goal.

The Milton Mechanics' Institute have purchased a \$350 piano of Messrs. Heintzman & Co., manufacturers, Toronto, who took the first prize at the recent Provincial Show at Kingston. They propose to pay for it by Re-unions, the first to be on 15th inst.

The Grand Trunk Company intend to close their office in Galt, on the 8th of the present month. The Deon branch is also, we understand, to be closed—the Grand Trunk Company having made arrangements for the carriage of all freight coming over their line for Galt by Great Western from Guelph.

SOUTH WELLINGTON TEACHERS' ASSOCIATION.—The next semi quarterly meeting of the South Wellington Teachers' Association will be held in the Town Hall, Guelph, on Saturday, the 12th inst. The subject for discussion, "Mixed Education," will be led by Mr. McLennan. A full attendance is requested.

THIRD PRIZE BOGGY HORSE.—The third prize for a single buggy horse was awarded at the Show on Thursday to Mr. F. Gauhan, but he refused to accept the ribbon. The prize would be given to any one else, and although he denied the justice of the judgment which placed his horse in the third rank his name must appear as the winner of the prize. Mr. Gauhan must solace himself by the reflection that he was not the only person who had reason to consider, that their animals were not awarded the position to which their merit entitled them.

SERIOUS ACCIDENT.—On Friday last, while Mr. Robert Nesbit, son of Stephen Nesbit, Esq, Beverley, was attending a threshing machine, the sleeve of his shirt got caught in the connecting rod, and he would undoubtedly have been fatally injured had it not been for the presence of a mischievous person who stood near him at the time, and who immediately caught hold of him and by sheer force pulled him away from the machine.—Mr. Nesbit was, however, severely bruised, and had one of his arms broken near the shoulder.

FIRE AT GODEFRICH.—A fire broke out about one o'clock on Thursday morning in the frame block fronting on the Market square, owned by Mr. A. Smith and Mrs. McConnell, and occupied by Mr. Smith, clothier, Mr. McIntosh, gunsmith, and Mrs. McConnell, milliner; and in a short time consumed the whole. Smith's loss is nearly covered by insurance. He saved most of his goods. McIntosh is partly insured and lost everything. Mrs. McConnell had no insurance, and saved the principal part of her goods and furniture, but lost the building and some personal property. The origin of the fire is unknown.

RAILWAY BY-LAW IN GARAFAXA.—The voting on the Railway By-law in the Township of Garafaxa, offering a bonus of \$20,000 to the Wellington, Grey and Bruce Railway, and \$10,000 to the Orangeville and Brampton Tramway, will take place to-day, and from what we were able to learn on a recent visit to that Township, the By-law will be defeated. The people are very well satisfied with Guelph as their market, and believe in enjoying the privileges of a railway without having to pay for it, as Guelph Town and Township have had to do. As they are situated at present they have a good market, while (if the railway should go on) in Vergus or Elora they would have but a little commerce, and be compelled to take what buyers choose to offer. This, in a few words, is their main objection.

DREADFUL ACCIDENT AT AYR.—The Galt Reporter has the following:—"A most painful and serious accident occurred on the Show ground at Ayr on Wednesday last, whereby Mrs. Reid, wife of Mr. Thomas Reid, of Blair, received most dreadful injuries. The unfortunate woman was standing near the horse-rings at the time, when a young horse attached to a buggy was driven through the crowd. Just as it was passing Mrs. Reid, it suddenly kicked out most viciously, striking the unfortunate woman directly in the face, and inflicting such terrible injuries that it is feared she cannot survive. The whole upper jaw appeared to be smashed to pieces, the injuries extending nearly to the eyes. Medical aid was obtained as promptly as possible, and the injured woman removed from the ground; but we understand that her medical attendants have but faint hopes of her recovery. The occurrence of this deplorable accident cast a heavy gloom over the proceedings of the Show; and the most heartfelt sympathy was expressed for the unfortunate victim, as well as those more immediately connected with her.

BUNYAN, speaking of the fruits of his mission, says:—"I have observed that a word cast in by-the-by, hath done more execution in a sermon than all that was spoken besides. Sometimes, also, when I have thought I did no good, then I did the most of all; and at other times, when I thought I should catch them, I had fished for nothing." In this respect Bunyan's experience was not unlike the experience of other ministers. Would likewise, they could say with him: "Never can I be satisfied unless some blessings do attend my work. If I be fruitless it matters not who commends me; but if I be fruitful I care not who condemns me."

Volunteer Rifle Match.

Arrangements are in progress and far towards completion in London for holding a District Shooting Match at that city on the 22nd inst. Committees have been appointed there to canvass for contributions, and to draw up rules for the government of the match. The shooting is to take place at the Cove Ranges. The prize list has not yet been definitely settled, as it will entirely depend upon the amount of contributions obtained. One match, however, is intended to be a sweepstakes of \$120, divided into three prizes of \$50, \$40, and \$30, to be competed for by ten marksmen selected from each battalion in the district, at ranges of 800, 400 and 500 yards. There are 12 battalions in the District, and the sweepstakes are to be made up of an entrance fee of \$10 from each. Circulars have been addressed to the colonels of all the battalions in the district calling their attention to the match. One of these has been received by Lieutenant Colonel Higginbotham, and also a letter from Lieut. Col. Shanley, stating more explicitly than it was set forth in the circular, "that with a view to making the main prizes of the meeting, those for the District Match, as large as they ought to be, there is a necessity for the sum of at least \$10 from each battalion in the district being subscribed." Then follows a request, that that amount, at least, will be forwarded from the battalion, if possible, before Monday, the 7th inst., as on that day the committee is to report on the sum total of the funds in hand, after which the several matches, prizes, &c., will be published. Col. Higginbotham has notified the committee that the 30th Wellington Battalion will join in the match. Subscription lists are now with him and the captains commanding companies in this Battalion, and it is to be hoped every volunteer will heartily join in the coming match. We have no doubt that the Wellington Rifles will come off well, and show that they can use the new Snider rifle with as good effect as the old Enfield, the former being the rifle to be used at the match.

Woollen Manufactures in Ontario.

The woollen goods made in Canada at present are tweeds, froises, etofes, satinettes, flannels, blankets, and woollen hosiery. For the manufacture of these there are facilities of a high order in the country, but the finest cloths are altogether imported. A few years—the last four or five—witnessed remarkable strides in the progress of this business in Ontario. In addition to Messrs Barber's factory, described in our last, we can point to such works as those of Messrs Hespeler at Hespeler, Messrs Ellis of Brantford, and many others, some of the largest of which turn out between \$300,000 and \$300,000 worth of produce annually the aggregate production being at a moderate computation, about two millions of dollars for the whole of Canada, twenty per cent of which are probably manufactured in Ontario.

D. McINNES & CO., OF HAMILTON. Though not strictly manufacturers deal exclusively in Canadian manufactured goods, and take the entire produce of several mills. The senior partner is also senior partner of the firm of McInnes, Calder & Co., but the two houses are distinct in management, the latter firm dealing only in imported articles. The firm buys largely from Messrs Hespeler, Messrs Barber, and other manufacturers and takes the entire produce of Messrs. Ellis's mill at Brantford, Messrs. McKinstry of Caledonia, the greater part of the goods, made at the Ancaster and Streetsville framework-knitting factories, and either in whole or in part, the produce of the Paris blankets mills.—Messrs. Slingby & Kitchen's—Messrs. Frasers & Co's mills at Cobourg, Messrs. Davidson & Son's Guelph, and others. With reference to the blanket manufacture it may be observed that this is a rising industry with prospects remarkably good—the makers alleging that no blankets can be imported equal to theirs within twenty per cent of the cost.

D. McINNES & CO., have we think done a wise and a shrewd thing to limit their business in Canadian goods, especially as they are so intimately connected with an importing firm, and we have no doubt they have been guided in their plans by the consideration of the facilities Canada possesses for manufacturing goods suited to the climate, and the consequent certainty that the goods will acquire character and eminence. We possess in this country a cheap and plentiful water supply, and wool is grown here in great abundance and cheaper, perhaps, than anywhere else in the world. At present the finer classes of combed wool go to New York, and some of the American fleeces come here and are intermixed with our own for lighter spring tweeds but they come free of duty—the Canadian Legislature having wisely adopted the principle of admitting into the country materials used in manufacture to a large extent free of import—about the best mode of protection that can be devised, and in most instances all that can be wished. Messrs. D. McInnes & Co., by uniting energy have built up an extensive trade, east and west, and this year have made considerable shipments to New Brunswick and Nova Scotia, and even by Cunard coasting steamers from Halifax to St. John's, and Harbour Grace Newfoundland, thus going beyond the present limits of our confederation. We may add that it is the only house at present dealing exclusively in Canadian fabrics.—Toronto Journal of Commerce.

TROUBLES WITH TURKEY.—The Columbia Republican says:—"A serious embroglio in our relations with the Divan has arisen, as follows:—Sarkis Minasian, who has for many years acted as the resident agent in Turkey for the sale of Dr. J. C. Ayer & Co's medicines, driven by the increase of his business to the necessity for more room, built his warehouse in Constantinople several stories higher, after having obtained the necessary permit from the authorities. The Innams of a neighbouring mosque, which overlooked the premises demanded a large present in money, which was refused. They then applied to the Grand Vizier, for the enforcement of an obsolete law, which had been disregarded two hundred years, requiring him to take down the building to eighteen feet, which was granted, and they commenced their work of demolition. Minasian then applied to the American Minister, who sent the Sublime Porte that American

property could not be thus trifled with, and the demolition must cease. They commenced the usual course of Minasian prostration and promises, but no real redress. Finally, Minister Morris informed them that if these deprecations continued, he should order the U. S. ship of war to enter the Bosphorus and Messrs. Ayers' medical warehouse would not be alone roofless. A stroke of his pen could have laid the whole city under the sweep of American cannon, backed by men who are not schooled in the lessons of fear. This brought them to their senses and speedy redress. Minasian has now arrived in this country to present the case to our State Department for indemnity. At length is something to say among the people of the earth—"I am an American citizen."

TO-DAY'S TELEGRAMS.

Special and Exclusive Despatches to the Evening Mercury.

From New York.

New York, Oct. 4th.—It is reported from Mexico that Santa Anna is very rampant in the Castle San Juan de Ulloa, where he remained a prisoner. He refused his meals and passed his time in cursing and stamping.

New York, Oct. 4.—A serious riot occurred in Jefferson City, La., on the second day of the election. It commenced in a dispute between a white and a black man, and was followed by a general melee, in which firearms were freely used. Two whites and four negroes were seriously wounded. The military were called upon, and soon quelled the riot.

London, Oct. 3rd, evening.—It is reported that a policeman had been shot and killed in Rochdale by some Fenians. A policeman was attacked and nearly killed in this city by a gang of citizens, last night. These events, in connection with recent occurrences in Manchester and Ireland, have given rise to the rumor of a new and wide spread Fenian conspiracy.

London, Oct. 2.—Reports from Italy are startling. A despatch from Florence, received late this evening, says the outbreak at Viterbo was not quelled. The small town of Aquahendente, in Ovieto, has been captured by the insurgents, who now have full possession of all the roads leading to it. The commander of the forces of the Pope has asked the Italian government for instant assistance. Italy refuses to furnish any soldiers. There is now no room for doubt that the revolt is serious. There are alarming apprehensions of an interruption of friendly relations between Italy and France.

London, Oct. 3.—Later advices from South America have been received. They give no definite intelligence as to the result of the recent bombardment of the Paraguayan fortifications, but state that the Brazilian and Argentine fleets were lying inactive off Humaita, and the land forces of the allied powers making no preparations for further movement.

London, Oct. 3rd.—The members of the Masonic order last night gave a grand dinner at Gravesend to the officers of Farragut's flag-ship, Franklin, now lying off the port.

London, Oct. 3rd, midnight.—The Turkish government has made an apology to the American ambassador at Constantinople for the insult offered to one of the messengers attached to the U. S. consulate. The Emperor Alexander of Russia has demanded of the Sublime Porte the cession of the Island of Candia to Greece.
