"Why," he said, "I can trim you my-self at the bunt and run, or circling the bases. Did you see me come down here?" We kept this up for several minutes. There was a runner on third also, and the batter fouled off a couple and gave us more time to kid each other, and finally he hit a bull to wasn't very laughable then. The play show that a fellow can't think of two things at once, and proves that sometimes one idea gets into a fellow's head and keeps him from thinking of anything else for a second, or a part of a second, and that is about all the time a fellow needs to make a bad break at baseball.

It was when I was with the Cincinnati club. I had been playing third and in the outfield, but on this day I was put in at short because someone was hurt. It was late in the season the said, "I can't trim you my-self at the bunt and run, or circling the bases. Did you see me come down here?" We kept this up for several minutes. There was a runner on third also, and the batter fouled off, a couple and gave us more time to kid each other, and finally he hit a ball down to me on the second bound. Two were out, but I saw that slow fellow pass me and start for third. Like a flash I decided to run him down, touch him out and turn the joke, so instead of tossing the ball over to first and ending the inning I chased him. I caught him ten feet from third, but as I hit him in the back the ball bounced out of my hands and rolled away, and the runner scored from third and everyone was safe. Along came a couple of hits and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and they came within a run of two first and ending the first and ending was put in at short because someone was hurt. It was late in the season and the team we were playing against was almost as far out of it as we were, so there was a lot of kidding going on. There was a field day to be held that fall and the announcement had just been made, so we were joshing about what we were going to do to each other. Along late in the

There were practically no changes in the positions of the batting enders in the big leagues during the last week. Ty Cobb topped the American league with comfortable margin and Zimmerman has little to fear from his nearest rival,

Joe Wood continues his mervelous winning streak and bids fair to hang up a record that will stand for all time. Marquard has regained the leadership of the National league pitchers, Lew Richie dropped into second place.

Reports the Killing

Dooks Fry, a farmer living southwest of town, reported the killing to the cheriff's office and said that the perpetrators of the ceed were on their way to Colfax to give themselves up. Sheriff Carter, Deputy Cole, Prosecuting Attorney Pattison and Coroner Bruning started for the scene and met the two just out of town. The man and woman, who was dressed in the garo of a man, with her hair cut short, at once handed over their guns to the sheriff and told about the crime, Prior to the shooting they had not eaten for 24 hours. They were brought back to Colfax, lodged in jail and the sheriff's party went to the home of the dead an's son-in-law. Charles Long, where they found Neeves with his body full of builtet holes.

Also it never meets a man at the front door on sweeping day and inform him that there is nothing for dinner except forlorn relics of yesterday's menu. After the sweeping is done, woman takes a dust rag and assaults the furniture with great violence. She feels better after this is done, and so does everybody else. However, her activity in this line, enables us to sit down in the front parlor without being frescoed with cobwebs, and we ought to be thankful.

Ideas of a Plain Man

By DR. FRANK CRANE

THERE is something about a stringed instrument that makes it more human than all others. The violin has a soul. The voice of the violincello is a spirit's cry.

A tone's a tone, of course, just as a man's a man; yet as some men have kingly and prophetic spirits, an some are but little better than animals, so some tones come all surrounded with suggestions, enclosing strange implications, attending by spiritual connotations, drenched with mystery, dripping with the waters of the infinite. It's part of the game, I suppose, and society would

be a mess without its conventions, but I sometimes think 'a dead animal become the medium speaking to us the unknowable secrets of that darkness into which animal-

souls go when the body dies? When I hear a skillful cellist draw his how some the string, the sound that penetrates me is not like that of a drum or a harp-string, but it is a veritable voice, the

voice of one calling across the lake of tears in my heart.
