FINLANDERS FOR CANADA

A Colony of These Splendid People Will Locate in Alberta—A Delegate's Views.

Ottawa, Sept. 8.—It took Messrs. Konin Ziliacus, A. Borgstrom and P. Myrsten, the Finnish delegates from Canada, but four days after their arrival in the Northwest to find a suitable location for the colony of Finns. The three Finlanders fixed on a district near Red Deer, Alberta, an eminently desirable location, for the new settlement. In conversation, Mr. Konin Ziliacus spoke enthusiastically of the merits of the Red Deer district.

"My fellow-countrymen who will probably come out," said Mr. Ziliacus, "will find the district near Red Deer should be just what they want and are used to. Wheat, of course, will continue to be the staple, but the soil of the tract is so rich as to make it possible to raise almost anything. We had with us an instrument for testing the soil, brought by Mr. Myrsten, who is the principal of one of our greatest agricultural colleges, and by its aid we found in every place from one to two feet of rich black loam lying on yellow clay. Root crops, rye, barley and oats, would undoubtedly grow luxuriantly. When we went to the Northwest we expected that we would find a tract of land not more than 30 or 40 miles from the railway, but we have done better than we hoped. The railway is but twelve miles distant from the nearest point of the land which we have selected. Living nearby we found a prosperous little Swedish settlement, and, curiously enough, not far away were two or three families of Finns, telling them the good news. It was a great surprise to us as we arrived at them. Of course they were overjoyed when we apprised them of the object of our errand, and from what we heard we expected that we would find the tract we had selected a suitable site for our new colony. We have already written to the gentlemen interested in the movement in Helsinki, Finland, and we are sure that they will be delighted to hear of our success. Although the winters in the district are considered cold by English-speaking people, they will be much milder than those of Finland, and the Government of Canada takes care to prevent the wasteful cutting of wood for fuel, and I am glad to hear of it, for in Finland, where the country is half forest, the people have grown so used to it that they have followed it to the Northwest. There is plenty of wood for fuel up there, so long as it is cut economically. Of course we know that coal exists in many places, so that the fuel question will never trouble the Northwest to any extent." Mr. Ziliacus, who is a newspaper man, will write a series of letters on Canada for his journal, which is published in Helsinki.

After having reported to Mr. Sifton, Mr. Ziliacus will leave for home, but if all goes well he will return in February next to prepare his way for the first body of our new citizens of Finnish birth.

Ponton's appeal against the decision of Mr. Justice Street, dismissing the action brought by Ponton against the Dominion Bank for \$50,000, for wrongful arrest in connection with the robbery of the bank's branch at Naperville. The case came up at the Cobourg Assizes in March last. Ponton's counsel sought to have the trial postponed till after the trial of the coming criminal case of the crown against Ponton.

The judge refused a postponement. Ponton refused to go on, saying three material witnesses, S. C. Warner, W. H. Durand and Robt. Miles, were absent. The case was thereupon dismissed, and the Divisional Court upheld Mr. Justice Street in refusing to postpone the case. The criminal case comes up at Cobourg on the 19th.
