 British Grain Trade.

London, Jan. 22.—The Mark Lane Express in its weekly review of the British grain trade says: Enrish wheats have been depressed. The demand has been slack and there has been no marked change in values. Foreign wheats have been firmer, largely owing to French purchases. Corn has been stronger, new mixed American selling at 18s and old mixed do, at 18s 4d. Barley, oats and beans have been steady.

steady.

At to-day's market English wheats barely realized last week's prices. The inquiry for foreign wheats was slacker. Flour was neglected. Oats were from 3d to 6d dearer, with a good retail sale. Corn on the spot was a trifle dearer for delivery in February, when the American new crop will be fully supplied at very low prices. Beans and peas were steady.

STRUCK BY A TIDAL WAVE.

An Atlantic Liner Has to Return to New

York-Great Damage Done. NEW YORK, Jan. 23 .- The Hamburg-American liner Normannia, which left this port last Thursday for Napies, Algiers, and Genoa, returned this morning in a disabled condition. She was struck at sea by a tidal wave, which swept away some of the deck, roofs and part of the promenade deck, and injured seven men, including the second officer, who will die. The wave sprung the hurricane deck, completely wrecked the ladies' parlor, the music room, the main saloon, both upper and lower, and flooded the steerage. The 120 firstclass, and the 145 steerage passengers, were thrown into a panic when the immense wave boarded the ship.

It was an intense relief to the passengers when they caught sight of Fire Island light this morning. The effects of many passengers were ruined by water. The ship was damaged between \$75,000 and \$100,-000, which is fully covered by insurance. The steamer will sail again within 24 hours and the passengers will remain on board.

Lactated Food does this great work for the baby-it does more-it causes baby to be bright and vivacious, good natured and happy.

Thousands of homes can boast of lovely babies brought up on Lactated Food. Here is a case in point: Mrs. George Copeman, of Dundalk, Ont., used Lactated Food, and writes as follows: "I used Lactated Food for my baby, and I am glad to tell you how pleased I am with the wonderful food. Baby is 4 months old; he is rosy and fat, and as quiet as any baby could be. I have had no trouble in raising him, and must give all the praise to Lactated Food.'
