

## CANADA IRON CO. IS IN THE HANDS OF A RECEIVER

Big Company Will Be Re-organized in a Few Weeks.

Profits Seriously Affected by the Expiration of the Bounties.

[Canadian Press.]

Montreal, Aug. 22.—Application was made to the courts today by the Canada Iron Corporation for the appointment of a receiver, under whose direction the affairs of the corporation will be conducted pending a re-organization of its finances. The application was granted and F. F. Whyte, of New York, was named as the receiver.

The decision to apply for a receiver was reached at a meeting of the board of directors this week, and it was stated on behalf of the directors that since the expiration of the bounties reduction in profits had seriously hampered operations.

**Reduce Charges.**  
The directors have decided that the only course open to them is to reduce their fixed charges by a reorganization of their finances.

The receivership is preliminary to a reorganization plan which is now being formulated.

The corporation has outstanding \$4,637,933 bonds and \$7,741,300 stock, of which \$2,909,000 is preferred.

This company is what is known as a close corporation, its stock not being listed on any exchange. Its 6 per cent bonds, however, have been listed in London since 1909.

**Many Properties.**  
The company has mines at Eganville and Bessemer, Ont., Bathurst, N. B., and Torbrook, N. S. Its furnaces are situated at Midland, Ont., Radnor and Drummondville, Que., and its foundries are at Fort William, Hamilton, St. Thomas and Midland, Ont., Montreal, Three Rivers and London, Ont., Que.

The head office of the concern is in Montreal, and the directors are: Thomas J. Drummond, Montreal, president; George E. Drummond, Montreal, vice-president; Edgar McDougall, Montreal, vice-president and general manager; A. E. Dymont, Toronto; H. Cookshott, Brantford. There is also a directors' committee in London.

Mr. Dymont when interviewed last night verified the reason given for the difficulty in which the finances are, declaring that the corporation was doing very well before the expiration of the bounties.

### ILDERTON.

Iderton, Aug. 22.—Miss Alta Clark and Miss Neta Scott are holidaying at McGillivray, Grand Bend and Granton. A load of Iderton young people went to Grand Bend on Tuesday and had a very enjoyable time.

Miss Carrie Knight is attending the millinery openings in Toronto.

Mr. and Mrs. T. J. Clatworthy have returned from a short vacation in London.

Miss Bell Knight has left for a short vacation in Cedar Springs.

Mr. and Mrs. Andy Scott spent a pleasant day in Granton recently.

Misses Mina and Amy Hughes are spending their vacation with friends.

**CONVINCING EVIDENCE.**  
Ask anybody about the Saturday night trip of the steamer State of Ohio to Cleveland and you will be immediately convinced of the great benefit which it brings to all who go. Two dollars, round trip.

## FIND DYNAMITE FUSE ALL LAID AT CITY HALL

A Sensational Plot to Blow Up Mayor Gaynor Failed Through Accident.

Scores of Lives in Jeopardy—Mayor Took Matter Quite Coolly.

[Canadian Press.]

New York, Aug. 21.—A deadly charge of dynamite—three whole ten-inch sticks and two halves, with a fuse and detonator—was discovered this afternoon near Mayor Gaynor's office windows in the city hall. The bureau of combustibles found that the explosive was 40 per cent dynamite, the regulation blasting proportion, and the amount found would, if exploded, have wrecked the city hall.

The mayor was in his office when the dynamite was discovered by a citizen passing through City Hall Park. Mr. Gaynor evinced little interest when told of the explosive's proximity, and remained apparently undisturbed at his desk while police officers hurriedly drew a cordon about the dynamite to keep back an excited crowd.

**Many Threats.**  
Mayor Gaynor frequently receives threatening letters, but he would make no statement regarding the possible connection between any previous menace by mail and the dynamite of today. It is just three years ago this month that he was shot in the neck by a so-called crank, and so badly wounded that for several days it was feared he would die.

The dynamite found today lay on a basement door in a concrete masonry archway within sixty feet of the mayor's window. The explosive was arranged in lattice formation, with the two small pieces on top. A partly-burned four-inch fuse, made of gunpowder tightly rolled in a paper cylinder, led to a detonating cap on one of the half-sticks of dynamite.

**Ready For Business.**  
Close to the explosive was a piece of Chinese junk and several partly-burned matches. The dynamite and fuse were wrapped in a piece of heavy cambric secured by red and blue twine. The cloth was blue, with red and white figures, and resembled the flannels worn by Italian women of the working class.

A review of the week's market shows natives, \$3 7/8 to \$4 1/2; yearlings, \$3 to \$5 1/2; lambs, natives, \$5 1/2 to \$6 1/2.

**TOBACCO.**  
TORONTO, Aug. 22.—The run at the Union stockyards yesterday totaled 61 cars, containing 793 cattle and 25 horses, 1,223 hogs, 1,000 sheep and 100 goats. Though the run did not exceed the usual closing day consignments, the market is quiet, a trifle quieter. This was due to a large extent to the fact that the residue of the past two days had to be cleared up, and as there were on the whole of an inferior quality, prices necessarily took a slight drop. The decrease averaged from 10c to 20c. While this decrease did not as a rule apply to the better grades of cattle shipped in today, it was general throughout the market, giving it a slower tone. There was very little change in cows, and while the trade was not overly brisk, there was not any marked decrease in prices. Lambs also showed a decrease, there being a falling off of about 25c on spring lambs, and 50c from 10c to 15c on the commoner grades. Sheep were fairly steady, as were calves, while hogs showed a slight advance. The week shows one of the best markets for some time. In spite of the large runs the quotations have been practically firm, and trade has been fairly brisk throughout the three days. Calves have been a special feature of the market, giving it a high price for this season of the year. Hogs, too, have been a feature, and with prices well above the usual. The outlook for next week is good. Because the market closed a little slower today, it is no indication that next week's market will open in the same manner. The lower prices of today were entirely due to the fact that a large number of inferior grade cattle left over from the other market days had to be disposed of. All regular cattle shipped in today sold at firm prices, but the poorer grades were preliminary to a steady market will in all probability open steady. Cattle should sell at prices firm with this week, if not at an advance. Calves have a slight advance, but if the consignments are moderate this is hardly likely. Hogs, though, are rather uncertain. The market this week has been large, and prices high, and it is quite probable that this market will open at a decrease of about 25c. Weather conditions have, of course, to be taken into consideration, but as there is very little likelihood of another very hot spell this week, climatic conditions should have nothing to do with weakening the market. The closing quotations were:
