R. V. PIERCE, M. D., Buffalo, N. Y.:

Dear Sir—Two years ago I was pale and emaciated, food fermented in my stomach. A physician pronounced my case "Catarrh of the Stomach," but he could not help me. I lived a month without solid food and when I tried to eat I would vomit. At this time I began taking Doctor Pierce's Pleasant Pellets, and in two weeks I was decidedly better. I am now in good health, and never felt better in my life. I have a better color, eat more, and have no distress after eating—having gained thirteen pounds since I began taking them.

Yours truly, MARY ANGUISH.
