THE TRANSVAAL DIFFICULTY.

recognition of British suzerainty over the Transvaal is hardly a matter worth talking about, and while there is ground for saying that the claim to exercise it has been impliedly, if not actually, waived, it is nevertheless true that the real question underlying the disagreement between London and Pretoria is what has been styled British "paramountcy." By this we do not understand that British political supremacy is meant, but that the development of the country and its institutions must be in British not Boer lines. We have seen the same idea worked out in America, where the Indians have been forced aside to make room for the aggressive English-speaking settler. We do not wish to be understood as placing the Indian and the Boer upon the lold an inquiry is bound to sit silent. According in respect to national growth, the betterment of the conditions of the people, and in every direction in which mankind is particular to collect moneys, royalties, revelue, interest, rents and debts; to negotiate be ever:

Quebec shows us how vital a part the speech of a people plays in the maintenance of nationality and furnishes proof in support of the Boer saying that "the" less is, very true, but there is another principle upon which the Methodists act, namely, that "where your treasure is, there will your heart be also." Great Britain also desires to see the fort which threatens Johannesburg dismantled, the mission of Dr. Leyds abolaished, the cancellation of the dynamite concession and the control of the Johannesburg police taken out of the hands of the Boers.

If these things are secured by force of diplomacy the Transvaal will become rapidly Anglicized, and whether it remains an independent nation or not its institutions will conform to those in force in British South Africa.
