

DAVID SPENCER, LIMITED.

A Grand Display of Millinery and Costumes Will Be Seen at Our Opening, Which Will Be Held on Tuesday Next

A cordial invitation is extended to all to visit this store on Tuesday next, and inspect the many beautiful creations in Millinery which will be on exhibition. Imported models direct from the leading style artists of the world will be seen in endless array, as well as many clever adaptations from our own workrooms. It is truly a wonderful showing, and will be found interesting, as well as educational. Not only will you see the largest assortment, but many exclusive patterns will also be shown.

The Mantle Section Will Be Equally Interesting

The many superb models in Ladies' Suits which have just arrived will readily appeal to the particular woman. There are suits of every known material and at all prices, allowing the most modest purse to participate. We will be pleased indeed to have you and your friends come in Tuesday. You are as welcome to look as you are to buy.

VICTORY FOR THE AEROPLANE

In French Army Manoeuvres the Heavier Than Air Machine Proves Its Greater Adaptability

OFFICIALS ENTHUSIASTIC OVER VALUE OF INVENTION

Each Morning Opposing Generals Have at Their Command Details of Adversaries' Dispositions

VILLIERS, France, Sept. 14.—President Fallieres, accompanied by the President-elect of Brazil, Marshal Hermes Fonseca, Premier Briand, and the foreign military attachés, witnessed the operations of the dirigible balloons and aeroplanes in the army manoeuvres today. Six dirigibles and aeroplanes, including those manned by the reservists Latham and Paulhan, took part in the operations.

Aeroplanes from each side reconnoitered along the French frontier, making reports of the positions of the various units of the generals commanding.

Thus far the aeroplanes have given better results than the dirigibles, which, on Monday and Tuesday, were prevented from leaving their stations by high winds.

Army officials are enthusiastic over the accuracy of the aeroplanes' reconnoissances. General Picquart, commander of the 2nd corps, and General Meunier, commander of the 1st corps, each morning before 7 o'clock are in possession of an accurate description of the location and movements of each other's forces.

General Picquart, commander of the 2nd corps, succeeded in turning the latter's position.

Berlin, Sept. 14.—Count Zeppelin's great airship, Zeppelin VI, was destroyed by fire near Baden Baden today. The airship was a dirigible of the Zeppelin type and was one of the largest air craft ever constructed.

The fire was caused by a terrific explosion while the craft was making a return trip to Heilbrunn, its headquarters. The flames shot skyward and the ship began to settle.

Although the ship fell a considerable distance, it settled lightly and only three of the crew received serious injury. No passengers were aboard. The vessel was completely destroyed.

This is the fourth serious accident to the Zeppelin dirigibles. Two have been wrecked and another burned, before today's accident.

Five minutes after the fire started all that was left of the great ship was a twisted mass of framework and molten metal. The crew were landed when the ship settled to the earth before the fire had spread far.

Today's accident, coupled with three former mishaps to Count Zeppelin's ships, have discredited thoroughly the Zeppelin type of dirigible here. Whether or not it will affect the continuing of the German army's experiment

SHARP REBUKE FOR COMMANDER ROPER

Officer Who Defended Canadian Naval Policy is Severely Criticized by Dominion Government Organ

OTTAWA, Ont., Sept. 14.—The Free Press (Liberal), supporting the government, takes Commander Roper to task for his speech delivered at the luncheon yesterday of the directors of the Ottawa exhibition wherein he deprecated politicians and the press referring to the proposed Canadian navy as "tin pot." The Free Press says:

"It comes as a surprise that Commander Roper, one of the officers loaned to Canada by the admiralty to assist the creation of the Dominion's navy, should have at the outset of his career in Canada committed the very mistake which called for discipline in the case of Lord Charles Beresford. It matters not that the subject matter of the address was excellent. Indeed, we confess we agree with every word uttered by Commander Roper and hope that the rebukes which he administered to the critics of the naval programme will be taken to heart by them. The principle involved is, however, so serious that Commander Roper should be rebuked by his superior officers that the duty of a sailor is to keep his mouth closed. He entitled his own opinions on matters of political controversy to no other individual but he should understand that in Canada, as in Eng-
