Mr. Royal argued against the award at some length in French and was followed by Mr. Laurier, who strongly supported the bill on the ground that the governments of Ontario and the Dominion having enter-ed into an agreement to leave the matter to arbitration, this parliament was in honor bound to ratify the award unless it could be shown that there was a gross injustice in it, or that there had been fraud on the part of the arbitrators. Neither of these charges had been made and therefore the award

was unfair and unfriendly to say that giving Ontario this territory would be inimical to the interests of Quebec. This consideration should be put aside and the matter considered from a judicial point

WORK IN COMMITTEE.

OTTAWA, April 4.-The American Tele graph & Cable company bill, which was pass ed some time ago by the house of common committee on railways and telegraphs, came up this morning before the same committee of the senate. F. N. Gisborne, superintendent of the government telegraph line, was present, and on motion, was given leave to address the committee. He then proceeded to point out the evils of telegraphic amalgamations, and was about to read some figures respecting the profits of the Dominion and Montreal companies with the 20 cent and 25 cent rates, when he was stopped by the chairman (Senator Dickey), who declared that this was not relevent to the bill new before the comparities. the bill now before the committee.
