# TORONTO WINS 2 GAMES.

### ONE AT ORICKET AND THE OTHER AT BASEBALL.

The Clippers Beat the Primiteses-The Dog Sports Club Tournament at the Humber-Racing at Saratoga, Brigh-ton Beach and Other Places.

Yesterday the Torontos proved, they knew how to play ball, and beat the Maple Leafs of Guelph by 11 runs to 2. McKinley ras in the box and gave evidence that he was far more reliable in that position than ither at short or third. From the be ginning to the end he pitched a magnificent game, the Leafs only getting their

ginning to the end he picture to the picture oent game, the Leafs only getting their work in for three base hits. He was also admirably supported by O'Rourke behind the bast, and by the fielders. But feur errors had to be recorded against the Torontes, one going to the credit of "Alderman" Smith at short, the only one in the field, another to O'Rourke, and McKinley giving bases to two men on balls. Spence at third, his old time posi-tion, Wade at left, Sheffler at centre and Kavanaugh at first ware invincible. Wade and Sheffler both made some admirable running catober. Macklin at second had comparatively little to do, but that little he did well, each time getting his man-out. Stemmyer played at right field, being unable to pitch owing to a bad hand. In the second innings he completed his reputation for ill-luck since he has been here by second base that he had to leave the field. Delancy, who appeared in the partiground of the loronto 0, 0, and easy after a very pleasant game, in an easy victory for the Torontos by an innings and 75 runs. For Toronto W. W. Jones, Lindsey, Boyd and Allan played good cricket for their respective scores, whilst for the visitors Arthey played a very careful innings, as also did Liddell. It should be mentioned that the Montrealers were dis-appointed as the last moment of two of their best bowlers. The scores were: Toronto, first innings, 190; Montreal, first innings, 64; second, 51. The Toronto individual scores were: W. W. Vickers 20, E. R. Ogden 14, M. Boyd 30, G. N. Mor rison 1, S. Cummings 3, A. G. Allan 24, W. W. Jones 44, G. G. S. Lindsey 31, D. O. R. Jones 13, A. H. Collins 2 (not out), W. H. Cooper 1, A. Winslow 2, extras 5. Mon-treal: W. Pinkney 0 and 1, E. W. Arthey 0 and 21 (not out), G. W. Jones 4 and 2, F. T. Short 9 and 1, Lacey 10 and 1, T. D. Bell 14 and 7, A. C. Macdonell 5 and 0, A. F. Beevor 4 and 0, F. Stancliffe 8 (not out) and 9, E. Myles 0 and 0, extras 7 and 1. Morrison secured two wickets, Ogden to second base that he had to leave the field, Delaney, who appeared in the parti-colored suit of the licensed viotuallers, being telephoned for. Delaney by no means proved himself a weakness. On the contrary at his first attempt in the field he contrary at his first attempt in the field he magnificently took a fly, rolling over in doing so, owing to the size of Stemmeyer's boots, and at his second easay with the bat he made the hit of the day, a beautiful three bagger, away beyond centre field. The Leafs gave a poor exhibition of batting and a worse display of fielding, their error column being particularly full. Flies were almost certain to be muffed and several instances of wild throwing had to be noted. Fitzgerald, the pitcher—a new several instances of wild informing has to be noted. Fitzgerald, the pitcher—a new man from Oswego, by the way—was hit pretty freely and he was so badly supported on the field as to make his work disheart-ening. Purvis was all there behind the bat, but hard as he tried he was unable to nature the fortunes of the day. Fred,

### NO MORE MONOPOLY. MEAMPIONSHIP BASEBALL MATCH. P. R. to Make a Bid For Canadian Telegraphic Custom. From the Montreal Star.

The monopoly of the telegraph business of the dominion so long enjoyed by the Western Union through its attachment in Canada, the Great Northwestern, is about at an end, as in the course of a month and as soon as the railway service is opened between here and Winnipeg, the immens elegraph system of the company will be thrown open to the public. "Our system is now in first-rate condition," said a high official of the road to-day te a Star repor-ter, "but we do not desire to open it to the public until we are in a position to give ample satisfaction and at the same time to despatch games of men to any portion of despatch gange of men to any portion of

depatch gange of men to any portion of the line to carry out repairs." In telegraphic circles here it is known that the most gigantic efforts were made by Jay Gould on behalf of the Western Union to get control of the Canadian Pacific lines. This was peremptorily re-fused and negotiations are believed to be on foot for the laying of a cable to connect the Canadian Pacific system with Anstralia, China and Japan. The Dominion govern-ment has in fact been approached on the subject by an English capitalist, but with what results has not yet transpired. A gentleman who is unusually well posted in telegraph matters stated to-day that if the Canadian Pacific adhered to its present policy of ignoring the Gould clique it would revolutionize the telegraph prob-lem. The Canadian Pacific, he said, had a complete monopoly of the business west of

iem. The Canadian Facino, ne said, had a complete monopoly of the business west of Winnipeg, and no doubt had valuable connections with the adjoining republic, probably over the Vanderbilt system (f railways, with whom the company was on

he best of terms.

First Day of the Biel Trial. Nicholas Flood Davin in the Regina Leader. The preliminary argument in the Riel rial was supremely interesting. It is not merely that a man is on trial for his life, charged with treason, or that he is prose. cuted and defended by eminent counsel that makes this cause celebre so full of suggestion. What do we see? On a spot gestion. What do we see? On a spot where three years ago the only sign of life was the trail of the savage or the feotprints of the buffalo, or the sweet short song of the prairie lark, or the less entrancing sonnet of the bull frog, what, we ask again, do we see? The highest expres-sion of civilization—an organized court of law, presided over by a judge learned in the law, with the most eminent lawyers in the dominion pleading judge learned in the law, with the most eminent lawyers in the dominion pleading before him. Rooney did fairly well unti the fourth innings, when he allowed a poor the fourth innings, when he allowed a poor batsman, Walker, to take his base on balls, there being already two men on bases. This was rather too much for the Clipper ceptain to put up with, especially as the batsman, who succeeded Walker is a slugger in dead earnest, and he decided to put Chamberlain in the box for the remainder of the game. At the same tim Jerry Moore, who had been watching the Jerry Moore, who had been watching the Clippers' interest at centre, was transferred from that position to the catcher's triangle. I telegraphed Mr. Vanderbilt about the matter, and he directed me to have a certain New York veterinary surgeon, now dead, who happened to be in Hartford, examine the mare and see what was the matter. I had been keeping the fact of the swelling very quiet, and would not let any one see the mare, so I locked the doctor up with her. He stayed in her stall half a day, then he came out fooking very, very solemn, and horrified me with It will doubtless surprise many people to find that workmen, when treated with proper consideration and liberality, are capable both of gratitude and generosity toward their employers. In the Leven toward their employers. In the Leven ship yard some time ago a ship was put down on speculation merely to keep the men together.
