Last of all came, the American Cattle Trust, a comparatively modest affair, with only 133, 961 certificates, or a capitalisation of \$13,300,-100, but which, however, may soon myster-iously creep up like some of the others. The Standard Oil Trust, which is the parents of all, these monopolistic institutions, has never applied to the Stock Exchange to have its certificates deals in. to-day, sugar trusts declining 7 per cent. and lead trusts 46 per cent. The transactions in lead trusts were enormous, amounting to over \$11,000,000, while \$2,000,000 in sugar trusts declined slowly in the early trading it appear-ed steady until afternoon and then the pace became more rapid and in the last hour a break of 41-2 per cent was recorded. The lead trust certificates closed yesterday at 30⁵. This morning at the opening of the stock exchange every one seemed anxious to sell and brokers tairly tumbled over each clier in their efforts to execute orders. Occasionally there were fractional rallies but a drop to 26⁵ was made within 15 minutes and in that time more than 27,000 certificates changed hands. The average being sold at a time, the average being between 500 and 1000. The trading was done in heavy blocks, 2000 shates being sold at a time, the average being between 500 and 1000. The trading starts the rest the break are western speculators, who had been great bulls on the certificates. A little more than six weeks ago the certificates were selling at 22, when they were sharply advanced 10 points and subsequently to 35. No efforts were spared to cereat the ouble the money they were selling for. One Chicaco operator heid 30,000 shares. mose of which had cost him above 30. Yesterday he wasquicity unloading when the break began. The break in Sugar trusts was undoubtedly due to manipulation.

it had always advocated. Then also must Orangemen here support those principles for which their forefathers had, fought, had, bled, and had died. The Jesuit Estates Bill was mentioned, but in Ontario we had even more to faar from Roman Catholician than in Que-bec. Our schools wore being Romanized and our language done away with. There should be no sepurate schools and no French language to displace the English tongue in this coun-try.

County Master Bell's key-note was "equal rights." How was it so many were joining the Orange, order to-day? Because the rank and file had been true to their prin-iples and had told the rulers of the present day that the old

The had been to be present day that the old times had gone by. Mr. Herbert Kout, after the last spoaker had concluded, read letters of apology for enforced absence from Revs. G. M. Milligan, Dr. Wild, T. W. Joffery, Mr. J. L. Hughes and others. Then Rev. G. Webber spoke to the audience below, He thought they should express in clear and empinatic manner their opposition to one of the grossest pieces of injustice ever in-flicted upon a great people. The public opinion of to day was turned to this great and memor-able body, and if they wore true no Government in the country could disrespect their verdict. So far as the teaching of a foreign language was concerned, the speaker bolived that in a land of British trule only the one great language should be taught.

of British tule only the one great language should be taught. Rev. Mr. Galbraith, who followed,did not be-lieve in drawing a line of demarcation between Jesuits and Roman Catholics. The fact was t that such a line could not be distinctly drawn. The two bodies were now in-separable, for Romanism had adopt-ed the great leading doctrines of Jesuitism. The hot agliation had given birth to a very extensive organization-the Equal Rights Association. Every true Protestant and Orangeman should now record, his vote against the Jesuit Ketates Bill. Aid John McMillan, President of the City Council, was roundly cheered. If o advo-cated , the old lumbering saying in the backwoods: "Hew to the line, let the chips fail where they may."
