**Guide-Advocate**  
 WATFORD, JULY 18, 1919  
 NOTE AND COMMENT

The Toronto Telegram says: By all means let the farmer in on this collective bargaining program. If he should take it into his head to strike, the rest of us would have to quit as soon as the canned goods gave out.

The total area of the Dominion under field crops has increased from 30,566,168 acres in 1910 to 42,602,288 acres in 1917, an increase of 12,046,120 acres, or 39 per cent. as stated in statistical data compiled by the Dominion Census Bureau. The average yield per acre of fall wheat in Canada is 23 bushels and of spring wheat 19 bushels. This compares with the United States average of 15.5 bushels for winter wheat and 13.2 for spring wheat. The figures are taken from the Canada Year Book which has just been published, and relate generally to 1916-17.

Peter McArthur, the well-known farmer contributor to the daily press, says: "It strikes me that the chief cause of the misunderstanding between city and country people is due to the fact that country people think that all city people are rich or at least highly paid, while city people think all farmers are prosperous. Both are wrong. The percentage of prosperous farmers in the country is just the same as in the cities. Both city and country are mostly made up of struggling people who are just folks. If they understood each other better they would get together and right many wrongs from which both suffer."

Parkhill Gazette:—Perhaps the closing of one room in our Public School will not be given a thought. But it is a part of the handwriting on the wall. The white race is dying out. Unless there are four children in every new home, the white race will continue to die out. In almost any foreign home in Canada, you will find as many children as you will find in a whole school-section in East or West Williams and plenty of other townships, and while the church thunders its warning about what will happen should the yellow race arise and go to war with the white race, we close a room in the Public School and never pause to realize what it signifies. It means the future of Canada. Shall we rule Canada through our children, or shall the children of the foreign woman receive the ruling of our country as a heritage.

An influential organization is being formed in Ireland under the name of "The Irish Dominion League." It is composed of men who believe that an Irish republic is unattainable and undesirable, but think that a prompt measure of home rule on the fullest colonial lines is urgently necessary. Among the promoters of the league are Sir Horace Plunkett, chairman of the Irish convention, and many men who were associated with him in the convention, as well as representatives of important business and professional interests. The proposals mark a large advance on the provisions of the 1914 Home Rule Act, or the two previous Home Rule bills, and their promotion by men of position is regarded as significant of the growth of Home Rule opinion and the urgency of a settlement. A weekly paper in the interests of the League is to be published, it will be known as "The Irish Statesman."

**THE TWELFTH AT STRATHROY**

There was a good turnout of Orangemen from this district at the Battle of the Boyne celebration at Strathroy on Saturday and all report a fine meeting and good time. Twenty-three lodges were in the parade. The visitors began to arrive early in the morning and before noon scores and scores of Orangemen had collected on the principal streets. At 1 o'clock the whole town was rendered to invading crowds. Then half an hour later the lodge leaders assembled their members and a long procession was formed with a pipe and drum band for almost every lodge. The huge banners and flags were unfurled; everything was quickly arranged for the parade. Finally at 1:30 o'clock the bands started playing and the procession began its march. Three beautiful white horses carried the leaders of the assembled lodges at the head of the line and were followed by Reeve S. Oakes

motor car, in which were Mayor L. H. Dampier and Very Rev. Dean Norman L. Tucker, of London. The first position in the parade was given to the L. O. B. A., of Sarnia, which consisted of ladies dressed in white and wearing bunches of orange and royal blue colored ribbons.

For over an hour the procession continued to march through the streets but finally the head of the long column turned toward Alexandra Park, where the speeches of the day and the athletic and amusement programs were to be held. Over 6000 people were assembled there to watch and take part in the celebration.

Dean Tucker of London, was the principal speaker, the other speakers being Mayor L. H. Dampier, Reeve S. Oakes, Rev. W. H. Graham, of Stratford, who acted as chairman, and Rev. S. F. Robinson, of Strathroy.

**LISTLESS, PEEVISH GIRLS**

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks frequent headaches, and breathlessness and heart palpitation will confirm that she is anemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia, and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold upon the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

Now, rich, red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

**Trees Belong to Property Owners**

A fact that does not seem to be generally recognized is that a tree planted in front of a piece of property is not subject to municipal control. It is very clearly stated in the Ontario Tree Planting Act which says:—"Trees so planted (by municipal, park commissioner or otherwise) on highways, becomes the property of the owner of the property adjacent to the highway and nearest the tree so planted. Such is the case also with any tree left standing on the highway." The same act allows any municipality to pass bylaws for the following purposes:—"To regulate the planting of trees on highways. To prevent the planting of an undesirable species. To provide for the removal of trees planted on highways contrary to law."

**SUMMER COMPLAINTS KILL LITTLE ONES**

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
