

# WONDERFUL RESULTS FROM TWO WEEKS TREATMENT

**Mr. Burrell Suffered Untold Agony From Sciatica, Rheumatism and Lumbago—Dreco the only Remedy that Helped Him—Rapidly Regain Normal Activity.**

Tortured cruelly by sciatica, rheumatism and lumbago, Mr. F. Burrell of 509 Ottawa Avenue, London, like many another workman, was forced to hide his sufferings and carry on with his daily toil. He had a family to support. Little did any one, except his wife, realize the effort it was costing him as he left his home each morning with only grim determination between him and a breakdown. A year and four months he carried on without a change, though medicine after medicine was tried. Then Mrs. Burrell heard of Dreco. Let her tell you of the wonderful results it achieved in two short weeks.

"My husband suffered for the past year and four months with sciatica, lumbago and rheumatism. He had terrible pains across the back, just over the kidneys so that at times he could hardly get around. He was constantly taking laxatives, his appetite was miserable and very seldom did he get a restful night. Nothing helped him until two weeks ago I heard of Dreco and persuaded him to try it. Now he is like a new man. The pains in his back and limbs are almost gone, his bowels are like clock work and he sleeps like a tired child. No other remedy has ever gone to the bottom of his troubles like Dreco. It has worked wonders and gladly do we praise it."

Men and women of all ages and conditions can once again know the joy of a springy, pain-free, healthy body by allowing Dreco, the natural herb and root remedy, to tone and regulate their whole system. Its gentle action gives immediate relief to the most obstinate cases of stomach, liver, kidney and intestinal disorders. Dreco is being specially introduced in Watford by Siddall's Drug Co. and is sold by a good druggist everywhere.

## A MOTHER'S HEALTH NEEDS GREAT CARE

**Care of Home and Children Often Causes a Breakdown.**

The woman at home, deep in household duties and the care of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor, living tend to weaken her constitution. No wonder that the woman at home is often indisposed, through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health and that is through the use of Dr. Williams' Pink Pills.

Mrs. W. T. Riley, R.R. No. 1, Apple Hill, Ont., has proved the great value of Dr. Williams' Pink Pills to mothers, and tells her story as follows:—"Two years ago, after the birth of my boy, I became very weak and run down. Gradually I lost weight and energy until I was unable to do my household work. I could not sleep, my nerves would twitch and jump so that I arose in the morning with heavy aching limbs and head. Indigestion helped to make the misery worse, and my heart would palpitate terribly. I doctored steadily for a year without getting better, but just dragged along feeling that I would never be well again. But one lucky day, on the advice of a friend, I began treatment with Dr. Williams' Pink Pills. I have taken only six boxes, but I wish you could see the difference. I am now able to do my work, go about and enjoy myself. I feel so entirely like a new woman that I advise every weak or ailing woman to try Dr. Williams' Pink Pills and I know they will get beneficial results."

If you are ailing, easily tired or depressed it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

What is apparently a new kind of insect pest has made its appearance in Perth county. So far it has only been found on one farm and that is in Downie township. For want of a better name the new pest has been named a root maggot. It has been found in potatoes in the form of white larvae, 20 or 30 in a bunch. Efforts are being made to develop the larvae and see what it really is and what can be done to check it. So far as they know it is a new thing in this part of the country.

## Canadian National Railway's Solid Steel Press Special.

at train was that which carried delegates to the annual Canadian Weekly Newspapers' Association, through the Atlantic division of any Canadian railroad. The sleeping cars were similar to those used on the transcontinental run of the Canadian National Railways and they found much favor among the 200 passengers on board, all of whom expressed themselves as being astonished at the accommodation, comfort and conveniences which these sleeping cars provided. The dining cars found similar favor in the eyes of the passengers and, in fact, the whole train

from the engine to the last car was the subject of many compliments from all on board. Accompanying the delegates were the following members of the Canadian National Railways staff: C. K. Howard, General Tourist Agent; Montreal; F. W. Robertson, General Passenger Agent, Moncton; A. H. Lindsay, Advertising Agent, Moncton; H. C. MacFarlane, District Passenger Agent, Halifax; F. L. Douglass, Travelling Passenger Agent, Moncton; and G. E. Lash, Publicity Representative, Montreal.

## NOTE AND COMMENT

Be flush and the world is with you. Be broke and you must go it alone.

Two million nine hundred thousand persons in Great Britain are drawing disability allowances, costing \$160 a head.

In the early eighties at a charity bazaar in Baltimore, patrons were allowed to talk over Mr. Bell's telephone for 10 cents. Only \$10 was realized, however, as most people ridiculed the invention.

Do women appreciate the privilege they have of voting for parliamentary candidates? In Amherst there were 1508 names of all persons on the lists eligible to vote on Monday. It is safe to assume that 700 of these were women, and of these 154 exercised their franchise. The position taken by the late lamented James Pliny Whitney seems to be justified by history when he set his face against extending the franchise to these women and of these or didn't want the vote.

Talk meters are being installed telephones and it is claimed that measure conversation after the fashion that other meters in the house measure gas, electricity and water. The new instrument is known as the telephometer, and as fully per cent. of all telephone conversation is either unnecessarily long, frivolous, the new invention works a saving to the operator. Every time the receiver is taken off the hook on a party line, the meter begins to operate. The eavesdropper will be charged as much as if he had made the call.

Halifax Chronicle: Canada may well take a leaf from the book New Zealand's example in restoring the "penny postage" rate. The act rate in Canada has remained at 4 cents, but there is a cent tax that makes the postage equivalent three cents. It is possible that the 4 cent rate would result in an increase in the letter business that would more than make up for any loss sustained by the lower rate. That was the result when the two-cent rate was established by Hon. W. L. Mulock, when Postmaster-General. A similar reduction, at all events would be welcomed by the public. Why not give it a trial?

Toronto Saturday Night editor discussing this terrible condition society concludes his deductions with the remark that the youngsters must be running the homes and not the parents. He is not far astray. Juvenile depravity and crime have their origin in homes where parental strain and control are lacking. There was an old time method that seemed to succeed with a fair amount of regularity. Children were simply to bed if they remained there, and if there was any fuss, it was easily cured by a liberal application of a strap or slipper. Parental authority seems to have collapsed; the children are performing going at astonishing pace to the bad. Parents are the sinners.

Ottawa Journal: More than 10 years have passed, and we are able to measure with a good deal of accuracy what the Mother Count has done in the way of clearing her problems. As a basis to what was the last year balanced budget, the first semi-annual report for 1923 reached New York other day. It makes one's blood tingle with pride to see such a demonstration of courage and dignity.

## GET NEWS IN EARLY

People who think that a local newspaper like the Guide-Advocate is up in a day or two have a small conception of the amount of mechanical work required to get out a paper. Even with the fast linotype machine it means that work is going ahead in the preparation of the paper and in order to avoid a jam-up at last, reports of meetings and events happening in the week have to be handled and set up in type as early as possible after they have been typed. If our good friends would not forget in mind they would not forget in hand in matter for publication until the last day and expect to see it in print. Often enough, the type is left out and the contributor is blamed and sometimes "hurt." If we were to attempt to handle this old material on publication day, it would mean holding-over an enormous volume of last minute news. We realize the situation as outlined here in a few words, wouldn't a thoughtful person sometimes help a derelict?
