med into a compost with dung, or with a mixture of dung and earth.

Peat.—Peat is a substance which may be used as a manure, but unless freed of its acid principle it may remain for years exposed to water and air without undergoing decomposition, in which state it can afford no nourishment to plants. Pure peat, should therefore, be made to undergo decomposition, before it is applied to the soil. This may be done by long exposure to the air, or by mixing it with quick lime, which decomposes the woody fibre, and forms a kind of compost, which, however, is not greatly valued.

TRIAL OF THE DEMPSEYS.—The second trial at Bathurst for the murder of Patrick Parle, resulted in a Verdict of Not Guilty as to Mary and Kitty Dempsey, and Manslaughter against Timothy Dempsey. The Court sentenced the latter to two years imprisonment, to be kept at hard labour. There appears to be a strong feeling in the County of Gloucester against the verdict.

NEW BRUNSWICK.

A quarterly meeting of the St. Andrews Temperance Society was held, in the Methodist Chapel on Thursday evening the 1st of September, when J. W. Chandler Esq. having taken the chair as President of the Society, read

Duncan Thompson. The Rep

Moved by Mr. Geo. Ballentine, and seconded by Mr. Robert Stevenson.—That the Report now read be received, and published.

paying the other expenses, of t

The last item was supported, in Mr. Elmore's address, from J. W. Chandler Esquire. The Rules of the Society being then read, and a collection taken up, the meeting was closed, with an accession of 8 members to the Society.

REPORT

It is with feelings of deep and unfeigned gratitude to the wise and dispassionate men that your Committee in submitting the present quarterly Report, have to state, that their expectations of success, during the past quarter have been fully realized.

re aware that at the last annual

eration was made in its favor, which must be acknowledged by every man, who gives the subject due consideration, has placed it in a situation calculated to promote the most beneficial results not only in reclaiming the confirmed drunkard, but also in preventing the rising generation from imbibing habits of intemperance, and placing the individual who

in a state of safety as it regards himself, at also in the best possible position, for promoting the objects of the Society, and for the advancement of the cause of Temperance, we have a very great object, and one which we wish well to the Cause of Temperance, and we are well of opinion, that the alteration in the rules of the society, would militate against success, your committee feel much pleasure, in being able to state that in past quarter, there has been an accession of 11 names to the list of members and that the tone of public opinion, respecting the highly philanthropic cause, in which we are engaged, is becoming far more substantial.

However although there is no reason to anticipate success on the part of the Association, your Committee would endeavour to point out a great coming to the conclusion that nothing more remains to be done. Be assured that much as has been done, for the promotion of Temperance, much more remains

following facts, that in St. Andre

although the quantity of Ardent spirit
imported at this Port, in 1855 was consid-
erably less than that of former years, there is
a vast quantity consumed, and it is
growing rapidly, your Committee will now arise
upon the necessity of increased exertion, and
feel no doubt that the united efforts of
friends of Temperance, will at length suc-
ceed, in driving from our shores, and
fully expelling from our society, this in-
teresting, but so pernicious, and so
Foe, to the peace, harmony and prosperity
of mankind, Alas, we
