Death at Mount Hanley

Our Mount Hanley correspondent writes: Our community was saddened on Friday night 8 o'clock to learn that one of our aged residents had passed away at the advanced age of 92 years Mrs. John C. Balsor, of pneumonia after being an invalid for over a year. She had a shock about 15 months after which she had to keep her bed. Having joined the church about 60 years ago she had always found the Lord her light and salvation. Rev. Solsman preached a very comforting sermon from St. John, chapter 14, text Psalm 118 7th verse. She leaves to mourn an aged husband two daughters, who were with her at the last and four sons all residing in Massachusetts, one boy and one sister, fourteen grandchildren, and 8 great-grand-children. Funeral took place at the house Monday afternoon, May 27th. A large number gathered to pay the last respect to the aged residents. Among the beautiful floral offerings were carnations from Mr. and Mrs. G. N. Reigh, Middleton; Wreath of Mayflowers from Mr. and Mrs. J. O. Stevenson, Brooklyn; Mayflowers and cut flowers from Miss Lizzie Slocomb, Mrs. John Thompson, Mrs. Leslie Strong (granddaughter of the deceased) and a broken wreath from The Ladies' Aid Society of which she is a member. The Hymns sang at the house were very impressive. The pall bearers were: A. W. Slocomb, R. A. Barteaux, C. W. Barteaux, S. A. Barteaux.

An Efficient Railway Official

(Kentville Advertiser) Mr. F. G. Comeau, head of the Freight Department of the D. A. R. in town Thursday on business. Mr. Comeau is a man who not only understands his railway work but he understands himself well informed on incidental matters connected with railway progress but of vast importance of the country at large, such as production of food stuff, manufacturing of goods and probable increase on their distribution and sale. While in the United States recently he took up the matter of production with authorities there and from the best information he could obtain, production in the United States of the vital food supplies is likely to decrease. As there is a world shortage of food, Canada and our own province by the sea must lend its energies to plant and produce to the limit.

A Cordial Invitation

The annual meeting of the Nova Scotia Branch of the Woman's Missionary Society of the Methodist Church of Canada will be held in the Providence church of this town on the third, fourth and fifth of June. On Tuesday evening, the 3rd, of June a public meeting will be held at which Miss Alcorn, a returned missionary from Japan, will give an address and exhibit views illustrating the work of the missionaries. On Wednesday evening, Dr. May Austin, a returned missionary from China, and Miss Jost, from Japan, will give addresses. A cordial welcome to these public meetings is extended to all. An offering will be taken at each of them. They will begin at eight o'clock. By order of the Committee

MARINE NEWS

Schr. Crescent previously reported at Digby in distress will be unloaded and re-coaled. Schr. Nellie, Capt. Ogilvie, arrived at Digby Monday with coal from Porthore for W. E. VanBlarcom also schooner Hattie Mackay. It is rumored that the S. S. Empress, Capt. Macdonald, now running on the St. John and Digby route will go to Halifax for repairs. The new three mast schooner St. Clair Theriault recently launched at Belliveau's Cove, Digby Co. is at Annapolis loading a cargo of lumber for the West Indies, shipped by Norman Hardy. The vessel is 247 tons net, painted white and command by Capt. Leonard Doherty. She will take about 350,000 feet of spruce boards and is expected to get away in a day or two. This is her first voyage and everybody wishes her good luck.

5000 Facts About Canada for 1919

Thousands will welcome the new 1919 Edition of 5000 Facts About Canada, edited by Frank Yeigh, the well known writer and lecturer on the Dominion. The booklet is a unique annual epitome of the trade, finances, manufacturing, marine, agricultural, dairying, mining, forestry and other facts, and a striking revelation of our national growth in a year. An extra valuable feature this year is the chapter on War Facts, containing the authoritative totals that people want to know, and that tell of Canada's part in the War in condensed form. In fact, this popular publication has been well termed a pocket cyclotron. Copies may be had from leading newsdealers or by sending 25 cents to the Canadian Facts Publishing Co., 588 Huron Street, Toronto.

The Farming Industry

On the 7th inst. an illustrative address was given by John A. Sherley, Secretary of the New England Farming and Food Foundation, at a luncheon of the Boston Show Trades Club, on "Better Farming as an Aid to New England Industry." The speaker maintained that American industry must stand or fall with agriculture. Fully 47 per cent of the working Man's income is spent for food, he pointed out. Farming can be made to pay here in New England, Mr. Sherley said. In fact, we can produce more corn and wheat per acre today than the West can produce, and there is no better field for the production of beef cattle than New England.

What is true of New England is equally true of Nova Scotia and particularly of the Annapolis Valley. As a matter of fact it is the opinion of experts that our section today offers better opportunities for young farmers than any other part of the province. With the advent of the farm tractors, the inexhaustible supply of limestone within a few miles of the heart of the valley, to correct the acidity of our soil, and a plentiful supply of fertilizer manufactured in our midst, there is every opportunity within reach for a profitable, and not too laborious, business, within the reach of all ambitious farmers.

The two outstanding crops, outside of the apple crop, that can be profitably grown would seem to be potatoes and turnips. Present indications are favorable for a good market in Cuban and New England markets. Crop reports from across the boarder indicate a shortage in acreage sufficient to send prices up above normal, the coming autumn. We are all familiar with the requirements of the Cuban markets. But it is not generally known that the Boston market only takes our white potatoes such as the Green Mountain, Gold Coin or Irish Cobbler. These varieties should therefore be planted in good quantities and some efforts made to establish a permanent connection in New England markets.

The transportation to Boston via Yarmouth has received close attention on the part of the transportation officials and assurance is given that space will be available to take care of exports offering for this route.

Sufficient time remains to increase our acreage to that of last year at least. The fact that the Boston market has taken a large quantity of our potatoes and turnips this Spring should serve as a stimulus in encouraging production.

Building Boom in Moncton

Moncton, in spite of high prices for building materials and labor of all kinds, has a building boom unprecedented in its history. The prospects are that the building operations this year will amount to \$3,000,000 of which \$650,000 is for the T. Eaton structure. Many double dwellings costing \$2,000 and \$4,000 each, are being erected.
