Newcastle, Jan. 4.—Word has been received here that George Dutcher, of Newcastle, was killed this morning while working in a mill at Foreston, Carleton County, when a boiler exploded and he was struck by a piece of flying metal. Death followed within twenty minutes. His wife died five years ago, and he is survived by three small children. The body will be brought to Newcastle for interment.

## Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps pastilles get there direct, and at once commence healing.

FREE TRIAL. Cut out this article, write across it the name and date of this paper, and mail it (with 1c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

## JOHN BROWN, THE WOOL MERCHANT

From an old history of the town of Torrington, Connecticut, where John Brown, the militant abolitionist, was born, we learn that in early life he was a wool merchant. He travelled extensively in the Middle States and in Ohio and Illinois for the sheep farmers in Vermont and even made a voyage to Europe to sell American wools.

It is said that his sense of touch was so delicate that by rolling a lock of wool between his fingers, he could tell, even if blindfolded, whether it was grown in Vermont, in Ohio, in Germany or in France. He was the originator of a system of grading wools.

Other merchants were often astonished at the accuracy with which Brown could classify fleeces by simply feeling them.

In illustration of that power there is an interesting anecdote of him. He was attending a meeting of wool merchants in London, where the English merchants were skeptical of his ability to test wools by touch. They believed that it was merely pretence, and they determined to trap him.

One of them brought in several wool samples, among which was a tiny, curly hank of very fine hair from the back of a collie dog. Then the merchant gravely asked the American to grade the samples according to his system. Brown closed his eyes and rolled the pieces one by one between his forefinger and thumb. When he came to the dog's "wool" he appeared puzzled for a moment. Then he burst into a hearty laugh and said, "If your English spinners have machines that will twist dog's hair into good yarn, this sample may make very fair cloth!" After that the Londoners thought best to take the Yankee's word for it.

## MARINE

The big six-masted schr. Whyoming, which brought a cargo of American coal to Gaspe last summer, the largest sailing vessel in the world and one of the two surviving vessels of her type afloat, has again changed ownership. Captain A. W. Frost and others of Portland have purchased her from the France and Canada Steamship Corporation of New York and will operate her in the coastwise business. Captain Charles W. Griffin, of Everett, who has been in command for some time and is also part owner, will continue as master.

Schooner Cora Geste, Captain Horace Thurber, of Freeport, Digby Co., loaded with canned lobsters and large dry cod for F. E. Davis Fisheries, Ltd., Gloucester, was at Clarke's Harbor January 4th, awaiting favorable weather to sail.

The three-mast vessel Lincoln, Captain Bishop, arrived at Weymouth from Boston Sunday and is lying at Campbell's lower wharf. As soon as the ice conditions permit she will be brought up to the bridge where a cargo of lumber will be loaded, shipped by Geo. Hankinson.

The three-mast schooner E. P. Theriault, Capt. Joseph Oliver, of Weymouth, docked at Meteghan River on Monday. The vessel finished discharging her cargo of coal at St. John and arrived in town. The E. P. Theriault has had a rough passage, just as she was coming out of New York harbor she ran ashore in a wind storm and sustained serious damage that necessitated repair work being done at New London.

## MR. SANDERS EULOGIZED

(Annapolis Spectator)

Geo. E. Sanders left last Thursday for Ottawa, not knowing how things might eventuate as to the possibility of his return. After quoting the recent articles in The Spectator in regard to the possibility of his leaving Canada, the Maritime Farmer, Sussex, N.B., had the following:

The Maritime Farmer feels, and all its readers who know Mr. Sanders either personally or through his good work among the fruit and potato growers of the Maritime Provinces, feel that if any inducement in the way of an increase of salary will retain Mr. Sanders's services for the Maritime Provinces and Canada, the Federal Department of Agriculture should leave no stone unturned. Mr. Sanders is a man of proven ability.

He has earned many times the salary which he receives. The Maritime Provinces want Sanders, and the Dominion Government should see to it that any stupid rulings of the Civil Service Commission that tend to keep the "live" ones and the "dead" ones at the same rate of salary, be abolished, so that men of ability like Mr. Sanders will not be spirited from public service, where they are badly needed, by private firms who recognize their value from a business standpoint.

Neither should a man of Mr. Sanders' type be obliged to wait or even ask for increases in salary commensurate with his value to the country.

Anything that the Dominion Department of Agriculture can do to retain Mr. Sanders's services will be highly appreciated by the farmers and fruit growers of Maritime Canada.

## SPRAY MATERIAL NEEDED

The following estimates are made upon the basis of the average sixteen to twenty-five years old apple tree to be sprayed four times:

1. Get the exact number of trees to be sprayed.

2. One-half as many pounds of Cry lead arsenate will be required as there are trees to be sprayed.

3. One-half as many gallons of lime sulphur will be required as there are trees to be sprayed unless dormant strength is used and then it would require more, or one and one-half as many pounds of dry lime sulphur as there are trees to be sprayed four times.

4. Where aphids, or green plant lice, are present at the cluster bud spray, about one pint nicotine sulphate should be used to each fifteen trees in the orchard.

5. When Bordeaux is to be used in three sprays, it will require about one pound of copper sulphate and one pound quick lime for each tree. In case Bordeaux is used for three sprays, the lime sulphur order will be only one-fourth of the above estimate, the lead arsenate remaining the same with which ever fungicide is used—Iowa State College.

## A SAD CHRISTMAS

For five days, all through the Christmas season, Mrs. Mary E. Henderson, lay dead on the floor of the dining room of her home in Toronto.

The three pet canaries that had fluttered so merrily in their cages when the old lady had come down stairs on the day she died, chirped in vain for their supply of fresh seed and water. Then one by one they dropped lifeless to the bottom of their cages, and there was nothing left living in the house, where the pitiless cold came creeping in, freezing the running water in the pipes, while the frost formed on the windows to veil the light from the room where lay the dead lady and her dead pets.

On Christmas Day Mrs. Henderson's son called with gifts for his mother, but went away when his ring was unanswered. Calling again on Tuesday he investigated and found his mother dead.

## Needless Query!

An eccentric American was anxious to get married in a hurry. He arrived with his intended bride outside a clergyman's house at midnight and insisted on being married on the spot.

The clergyman got out of bed very unwillingly, and having roused some of the members of his household to act as witnesses, he proceeded to tie the nuptial knot.

All went well until he asked the American: "Do you take this woman to be your lawfully wedded wife?"

The American stared at him in astonishment.

"Say, boss," he said, "what d'ye 'pose I yanked you out o' bed at this hour o' night for?"

## IMPORTANT RESOLUTION

The International Bible Students Association, in convention assembled at Washington, D.C., begs leave most respectfully to memorialize the International Arms Congress now assembled at Washington, D.C., as follows:

As Christians earnestly striving to follow the teachings of Christ Jesus our Lord and his Apostles, we hold:

That war is a relic of barbarism, destructive of good morals and a reproach to Christian peoples;

That the principles taught by the Lord Jesus Christ preclude consecrated Christians from engaging in war, bloodshed or violence in any form;

That no nation can be said to be truly Christian which fails to adhere to those principles taught by the Lord and his Apostles;

That the ruling or governing factors of the nations commonly called "Christendom" are now and for some time have been, to wit, Financial Princes, otherwise termed Controllers of Commerce, Statesmen or Political Leaders, who formulate the laws, and Clergymen and other Ecclesiastical Teachers, the last named, both Catholic and Protestant, having, contrary to the Word of God, joined hands with the two first-mentioned factors (which three component parts here mentioned we for convenience and identification designate "The Ruling Powers");

That the delegates and representatives of The Ruling Powers now assembled in international conference at Washington for the purpose of limitation of armaments, and insofar as possible for the establishment of conditions of peace and prosperity among the people, have before them a laudable objective.

But we may be pardoned for humbly suggesting that the end desired cannot be attained by a partial or even complete disarmament of the nations. Restoration of men or nations will not result from the destruction of arms, but genuine reformation of men will lead automatically to the complete destruction of all instruments of war and all forms of violence. While human phrases, yet it is not the worst thing that may be feared.

Bolshevism, as a great menacing monster, is knocking at the door of every nation, and the destruction of all law and order is threatened. To prevent such terrible disaster and to save the people from indescribable suffering is the tremendous problem which we submit, requires more than human wisdom. We therefore suggest that the heading of Divine wisdom and the adoption of the Divine remedy as prescribed by God's holy Word is vitally essential at this time.

The kingdom of Christ, the Messiah, for which he taught his disciples to pray, is at hand. This is evidenced by the World War, famine, pestilence, social upheaval, distresses of nations with perplexity, etc., all of which constitute the fulfillment of prophecies made by Jesus himself as relating to the present time. Within a short time his kingdom will be fully and completely established and the old order of things completely gone. To that kingdom all earthly powers must be subject either willingly or unwillingly. The trouble upon the nations: beginning in 1914 is but the expression of God's vengeance against all unrighteous systems in the earth.

The holy prophets of Jehovah indicate how that the kingdom of Christ, the Messiah, may be established without great suffering to humanity, provided that the Divine way be adopted. You will pardon us, therefore, for calling your attention to those Divine prophecies long ago recorded, which in substance indicate what the proper course is, to wit:

(1) Let the Financial Princes, the Controllers of Commerce, cease profiteering, cease exploiting and deceiving the people by systematic propaganda, and be content with a reasonable income sufficient to insure their own maintenance and support; let them use their power for the general welfare of the people to the end that the idle man be employed, the hungry fed, and each man be afforded an opportunity to provide for himself and loved ones the things decent and honest in the sight of God and men.

## Something Else

"Here's a man found nine pearls in an oyster stew. Wonderful, hey? 'Oh, fairly startling. I thought you were going to try to lead me to believe he found nine oysters."

He (just accepted)—Ier-want to confess, darling, that I've been engaged before.

She—Oh, you slowpoke! Why, this is my fifth.

## After the Sun Goes Down What?

Aladdin Light, Of Course.

The white light nearest to daylight of anything yet invented. We have been using and selling these lamps for over five years and find them absolutely satisfactory. They give ten times the light of an ordinary oil lamp, on less oil, as they burn 94% air—no smoke and no odor. We have just received a new shipment of table lamps, which are in superior, both in construction and beauty, to any we have had before. We would be pleased to demonstrate this lamp to anyone who is interested in a better light. Costs you nothing for the demonstration, and places you under no obligation to buy. One of the lamps would make an ideal Christmas present for anyone. If you are interested, drop a card to me to-day if you can have an Aladdin for a few evenings for trial, and let the light speak for itself.
