

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills, thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c. a box.

Lockport's Small Man Dead

He was Smallest Man in Canada, Being Less Than Three Feet In Height.

Lockport, May 27.—Edward Hupman, probably the smallest man in Canada, died yesterday at his home in Allendale, five miles from here. He was thirty-eight years of age. His height was but two feet nine inches, and he weighed about thirty pounds. He had been ill for about five months with stomach trouble, but the immediate cause of death was paralysis with which he was stricken on Sunday. Both Mr. Hupman and his parents were always adverse to his appearing on exhibition, but when the Dominion exhibition was held in Halifax four years ago he appeared there in company with his sister, who is now about twenty years of age, and of exceedingly small stature. The deceased possessed good school education, and while he had his health was a constant reader and was well versed in public questions. He was widely known in Shelburne county, and was a general favorite. He was not in the least sensitive concerning his diminutive size and mingled freely among his fellow men. During the construction of the public wharf at Lockport station he was employed as timekeeper and gave general satisfaction. The funeral will be held on Sunday.

"It cured me," or "it saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all dealers.

MIXTURE IN BOY'S POCKET EXPLODES THREE PEOPLE HURT

Toronto, May 28—(Special)—An explosion of a mixture of chlorate of potash and sulphur in the pocket of Frank Barsottie, aged fourteen, in McCaul street last night caused serious injury to him and to Stewart Plant, aged eleven, and Miss Maud Barnett, aged twenty-one, who was passing. Barsottie's left arm had to be amputated and he may not recover. Miss Barnett had a hole torn in the abdomen and sustained severe burns, as did Plant. Barsottie had been experimenting with chemicals. Friction caused by walking and the heat of the body probably caused the explosion.

Dropsy— Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

L. TURLEY CURD, Wilmore, Ky.

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

Price \$1.00 at your druggist. He should supply you. If he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto.

How Do You Judge a Dairy Cow

Dominion Department of Agriculture, Office of the Dairy and Cold Storage Commissioner.

A dairy cow is often judged by the scale of points of the breed to which she belongs. Another method is to rate according to her genial appearance and the external indications of milking powers; appearances are sometimes deceitful. Recently a farmer near Ormstown, Que., sold five cows at \$25.00 each, saying they were no good as dairy cows. The purchaser found to his great satisfaction that one gave him 10,000 lbs. milk, and another 13,000 lbs. Sometimes a cow is valued because she is easy to keep, or she is a docile family pet. Coming nearer to the practical test, a farmer may judge his best cow to be the one that daily gives a couple of pails full of milk in June; though she may quickly decrease in flow, the remembrance of that big yield sticks in her owner's mind and she is undervalued ranked too high. Or she may have earned a wide local reputation just by one isolated test to fat very likely higher than normal. On the other hand a cow that gives only a moderate yield but attends strictly to business for a reasonably long milking period will probably prove the most valuable. Again there may be some general idea of production, but totals that are only estimated are generally in excess of the actual yield.

The positive proof of value is certainly of the cow's ability to produce milk and fat economically, the generous minded, unselfish, real dairy cow, independent of strikes and lockouts, works full time, and returns a handsome margin of profit above the computed cost of feed. The one infallible test is a record of the production of each cow for the full period of lactation. Don't average up the herd, ascertain that each cow is a specialist.

GOOD STABLE REMEDY.

A very trivial thing often times causes a horse to go lame, such as a slight wrench, a sprain, a cut, etc. These are things to be expected. They are liable to happen to any horse at any time. The lameness may cause inconvenience but it is not otherwise serious. All that is necessary in many cases is to be ready to treat promptly with some efficient remedy.

In this connection it is a suggestive thought that for over a score of years one could hardly speak or think of a horse remedy without calling to mind Kendall's Spavin Cure.

Perhaps no other single horse remedy has ever been so generally used or had so great a reputation. Almost everybody who owns a horse has heard of Kendall's Spavin Cure. Its popularity has been confined to one locality or state. It is national even world-wide. It is found on the shelves of well-posted horse men in many countries.

It is worth while to remember that Kendall's Spavin Cure has been in use for nearly half a century and its popularity is greater now than ever before. If it had not stood the test it would have been out of mind long ago. This old favorite horse liniment is on sale at drug stores and general stores everywhere. The excellent horse book entitled "A treatise on the Horse and His Diseases," can also be had free at drug stores or by writing for it to the Dr. B. J. Kendall Co. at Enosburg Falls, Vt.

HAS OUTLIVED FIVE SOVEREIGNS.

Mrs. T. R. Linton, Park street, is one of the few loyal British subjects who have lived in the reigns of six sovereigns. This worthy citizen has been on our little earth during the reigns of George III, George IV, William IV, Victoria, Edward VII, George V.

KEDGEMAKOODGE LAKE.

Mr. Benson is engaged in putting up a very commodious cottage for the use of the management. It will have six large bedrooms, sitting room, dining room and kitchen, with a verandah on the front. It will be ready for occupation in ten days' time.

The new motor-boat is now ready for the engine, and does the builder, Mr. Benson, a great deal of credit. It is a fine model, and fitted up in great shape and will accommodate thirty people. Mr. J. H. Coffill, of Bridgewater, will install a Gray 10 h.p. engine in her and she will be launched sometime about the 20th of May.

The Club were very fortunate in securing the services of Mr. Smith, the English chef, who can work marvels in the kitchen line.

The log cabin will be started this week and rushed up so as to be ready for the American guests by the end of June.—Gold Hunter.

CHILDREN'S STYLES.

Simplicity the keynote of Modes For the Small Girl.

Gingham frocks for youngsters are much in vogue, the bright combinations of coloring in the weave and the starch wearing qualities of the material adapting themselves peculiarly well to childish wardrobes.

Pique is much in favor for children's dresses, and when it does not constitute the entire garment it is used for

A MODISH LITTLE COAT.

trimming little frocks and comes in many variations hitherto undreamed of.

Pique frocks made with one piece yoke and sleeves, the square neck outlined with handmade scallops and the little dresses cut on the plainest lines by means of a circular gored pattern, never outgrow their popularity with mothers who consider simplicity a necessity of the childish outfit.

Little girls are wearing this season smart coats that are finished with deep revers collars and worn with patent leather belts. The coat illustrated can be utilized in that way or worn without a belt. In the present instance the coat is made of linen trimmed with embroidery, but the model is very useful in pongee lined with dotted foulard or serge lined and trimmed with foulard. JUDIC CHOLLET.

This May Manton pattern is cut in sizes for girls of one, two and four years of age. Send 10 cents to this office, giving number, 6624, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

ATTRACTIVE TRIFLES.

Latest Cry in Neckwear—Old World Cotton Stuffs Made into Blouses.

There is no end to the variety of neck trimmings. The newest is the plaited full collar, called by some merchants the "Chantecler" to be worn around the low necked frocks.

The new frill comes in lace, linen, batiste and chiffon, or one may have a hand embroidered frill or a frill with dainty colored border. These trifles are to be purchased and used as side ruffles for the lingerie blouse.

Whole blouses of quaint old world cotton stuffs are made up to wear with

THE SEPARATE TUNIC.

coat suits, the plain color of the suit being echoed in the slight touches on the blouse, or the blouse material finds its way into the cuffs and collar of the coat.

The separate tunic is very modish. The model illustrated is of marquisette trimmed with silk banding and is worn over a guimpe of lace, but it would be smart made of chiffon and worn over an entire silk frock. JUDIC CHOLLET.

This May Manton pattern is cut in sizes from 22 to 42 inches bust measure. Send 10 cents to this office, giving number, 6625, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

MINARD'S LINIMENT CURES DIPHTHERIA.

VOGUE POINTS.

Hair High on Head Next—Black Satin Stocks Very Modish.

The modern coiffure is like the house problem in New York city. When there isn't any other place to go they build straight up. As soon as dainty woman tires of the turban that swathes her head she is going to revert to the styles of colonial days.

The black satin stock is the latest cry in neckwear, but to be extremely

GIRL'S SPRING COAT.

smart it must have a turnover or frill at the top. Cuffs matching the frill also have frills.

Close fitting upper skirts combined with plaited or frilled lower skirts will prevail among the run frocks. The round line of tulle or Russian coat falling over an all round plaiting cuts the wearer's height; hence it will be popular with tall women.

Simple loose coats are the preferred ones for the small girl during the spring and summer months. The coat illustrated can be made with several different collars. Royal blue broadcloth makes this a serviceable little coat. JUDIC CHOLLET.

This May Manton pattern comes in sizes for girls from six to twelve years of age. Send 10 cents to this office, giving number, 6621, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

FIBBLES OF FASHION.

Blue Colorings are the Latest of Shades.

Blues are fashionable, but this term is rather inclusive. To be accurate, the shades of blue worn are navy, gobbela, delft, cadet, cell and royal blue. Think of being sent for samples of blue with trimming to match!

Sleeves are of all lengths. To be sure, the long close sleeve is a trifle out, but there are many ways of add-

A GRACEFUL EVENING PROCE.

ing to the fullest. The long sleeve is used for the morning costume, and the dressy gowns have shortened models, although this rule is not ironclad.

This evening gown is simple and at the same time very smart. It is made of organdie and trimmed with embroidery, beading and ribbons. The skirt is one of the most graceful of the tied-in variety. JUDIC CHOLLET.

These May Manton patterns come in sizes for the skirt from 22 to 30 inches waist measure and the blouse from 22 to 40 inches bust measure. Send 10 cents each to this office, giving numbers—skirt 6622 and blouse 6623—and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

10 cent and 10 cent bundles of new papers at MONITOR OFFICE.

A BOY'S STRUGGLE FOR LIFE

Mr. S. J. New, of 154 Baldwin St., Toronto, says: I can trace my son Harold's trouble to when he had the measles five years ago, from which he never really recovered. Some of the best physicians attended him, but with months of suffering he in turn contracted whooping cough, bronchitis, and then pneumonia. Months after month went by that we shall not soon forget; months of sleepless nights, fearful coughs, weakening night sweats, left my boy a mere shadow. He had no appetite, and my heart ached to see how he was wasting away. He spent one whole summer at the Lakeside Home for Sick Children, and came home greatly improved, but the cold winds of October took him off his feet again. The doctor advised me to send him to Muskoka, but heavy doctor's bills had depleted my financial resources, and such a step seemed out of the question.

"At this point we tried PSYCHINE, and human lips cannot describe the change that took place. No words can express the thankfulness of his mother and myself when we saw the crisis was over, and realized that our boy was fighting his way back to life and health. PSYCHINE had mastered that which all the doctor's prescriptions had failed to check. Day by day Harold grew stronger, and all through the winter, although continually out of doors, he failed to take cold, and he put on flesh very quickly. By the spring my son was completely cured, and developed into a strong, sturdy lad."

PSYCHINE is the Greatest Strength Restorer and System Builder known to medical science, and should be used for COUGHS, COLDS, WEAK LUNGS, LOSS OF APPETITE, WEARINESS.

For Sale by all Druggists and Dealers, 50c and \$1.00.
