

THE EUREKA INCUBATOR

Is now manufactured in Canada, by

F. J. GRENNY,**Brantford,****Ontario,**

Who has acquired the right to make and sell them in the Dominion.

The EUREKA has now been in use for five years, and with ever increasing popularity. It has stood the test where some of the best other makes had to succumb, and is now without doubt

The Standard Incubator of the World.

The **AUTOMATIC EGG TURNING TRAY,**
and the **REGULATOR,**
Are most perfect inventions, and only used in this make.

Owing to the heavy import duties and express charges, and the comparative high prices of incubators of the better class in the United States, many have hesitated to purchase them in the States. To all interested I would say, before purchasing send me for twenty four page circular and price-list.

Incubators, 200 egg size now ready; any size made to order. Remember this is the only machine for hatching chickens patented and manufactured in Canada.

Prices.—100 egg size, \$30.00; 200 egg size, \$50.00.

The Best **BROODER** yet made,

Price, 100 chick size, \$8.00.
