

BUSINESS DEPARTMENT.

We are prepared to buy any quantity of No. 2 Section Honey. Those having such for sale will kindly write us saving the quantity they have on hand and how much per pound they will require for it.

There has been placed in our hands for disposal a No. 6 Victory oil stove which has been used for but two months. It is as good as new and has all the furniture complete. It will be sold very cheap at a bargain.

We have just made a very heavy purchase of note heads and envelopes, and in consequence of large buying we are able to get the price made to us very low. Here is an offer which we will make to our customers and the readers of the CANADIAN BEE JOURNAL for a short time : We will send per mail, post paid, 250 gcod large white envelopes with card printed in the corner, and 250 note heads with card and date line, all for the sum of \$1.00. There is nothing su nice and nothing which adds more to the looks of a person's correspondedce than to have a nicely printed heading on the note paper and card on the corner of the envelope, and when this can be obtained for absolutely less than the price of the paper in the ordinary way, there should be a large sale. We have just sufficient for 400 packages of this description and we expect that we shall not be long in disposing of them.

We did not mention that the envelopes which we included in our offer of last week as above, were put up in neat little boxes holding just the number-250. They can be sent nicely by mail. We may say that the postage is ten cents' which we pay; so that taking the matter of postage into consideration, the cost of note heads and envelopes is really 90 cents.

We have had several subscribers write us saying they do not understand how to tell how their subscription stood by looking at the address label on the wrapper of their JOURNAL; that they could not find the whole number of the JOURNAL itself. If they will look on page 5 at the head of the editorial department on any or every issue of the JOURNAL you will find the whole number there, quite plain. If the whole number of the JOURNAL be greater than the number shown on the address label the subscription is over due ; if the number is smaller on the JOURNAL than on the label then there is still the difference in the numbers at your credit.

We have more bees than we want to put into winter quarters and we propose offering them at exceedingly low prices to dispose of them. great number of our colonies are in the new combination hives, and we are prepared to sell good full colonies for delivery at the present time at \$6 00 per color time at \$6.00 per colony, in lots of 5, \$5.75, in lots of 10 \$5.00 million to the second seco lots of 10, \$5.50. There will be in each hive seven frames (the hive full) of brood and bees and whatever honey will be necessary for the trip and some over. In the regular Jones hive with six and seven frames of brood and bees (balance of 12 compty response) (balance of 12 empty combs) at the same price per colony. F. O. B. cars at Beeton station marks on time with satisfactory security. have too great a pressure in our supply business to permit of our extending our own aparies, and rather than lot that rather than let that portion of our business get behind we prefer to give it the preference.

ONE POUND GLASS JARS, SCREW TOP.

We are just advised that these have been shipped from e×. the glass works, and we days. pect them in a few as save breaking bulk To we ap much as we can, of the pend below a table the quantities in which with shipment is put up,

In estimating the price we prices per barrel. have calculated the same as for full gross lots, an allowance of 15c. being made per barrel.
