

NEW FALL DRY GOODS

AND MILLINERY, WHOLESALE AND RETAIL.

THE "TORONTO HOUSE" No. 60, KING STREET EAST, TORONTO.

J. CHARLESWORTH, would most respectfully intimate to the Ladies of Toronto and vicinity, that his Fall Stock of STAPLE AND FANCY DRY GOODS

is almost complete, and will be found worthy of inspection before purchasing elsewhere. His MILLINERY DEPARTMENT will be found to be the largest in this City, and perhaps not less than any other establishment in the Province of Canada.

The LATEST MILLINERY FASHIONS, will not be ready for the Retail Trade until about the 17th Oct. 1853. The Wholesale about the 1st next month, when all those parties not having received their orders, may expect to be supplied.

TO COUNTRY MERCHANTS.

J. C. would respectfully intimate to the Trade in Canada West, that in his Stock of Dry Goods this Fall will be found some of the greatest inducements. Having made special arrangements, by which every advantage has been taken of the House Markets, where purchases have been made for cash only.

HIS MILLINERY DEPARTMENT

has without exception the advantage over all others in this branch of business. Parties not having visited this house, will upon inspection find the Stock not only the largest but the cheapest, this fall particularly.

Call and examine Stock, Quality and Prices, for which no charge will be made.

JOHN CHARLESWORTH.

Toronto, October, 1853

THE LARGE ONE HUNDRED AND THREE, YONGE STREET

The rage for the gold of Australia is past, and now... For now they believe that they've often been told, That our own favored Canada is the country for Gold!

While here we are blessed with a generous soil, The man may have gold who is willing to toil, And you can win this search for a happy shore, Who knows so numerous encircle his door.

Strange indeed would it be, if a land like our own, Where our roses, though latest, and sweetest when blown, Through our winters are long, and some time a severe, But lead us to summers delightfully clear, Should be less attractive, because of its soil, Than lands full of vices—though seeming with gold!

But prosper us as Canada always hath been, This year is the best that she ever hath seen, And now she is wearing a laurel to wear, That nations may one day be anxious to share.

Her prosperous condition will appear very plain, When her farmers get a dollar and a quarter for grain, While all their productions so readily sell, At prices which now pay them equally well.

To many, it doubtless may seem very queer, Why Dry Goods are cheap and Profits so dear, It is true, notwithstanding, which our patrons may see, By calling on Yonge Street "One Hundred and Three."

While many know, an advance very great, Has been made in the value of woolsens of late, Yet our fleecings and blankets will quickly appear, Quite as low as the prices we offered last year.

Our Bonnets and Cloaks have been tastefully made, With a prospect of greatly increasing our trade, And our Shawls and our Furs will at once please the eye, And induce even the most fastidious to buy.

Our manner of business is extensively known, The lowest price asked, with the article shown, And such, we determine, shall continue to be, The increasing practice at ONE HUNDRED AND THREE.

HENRY LATHAM, BARRISTER.

ATTORNEY-AT-LAW, &c. &c. has resumed his Professional Business at his Old Office, over Headlam and Co's Store, Corner of King and Nelson Streets. Toronto, January 1853.

Mr McKenzie has succeeded in obtaining an excellent boon to printers from the Post Office department. It is the privilege of sending free inside of each paper the written or printed account due from subscribers, heretofore not allowed.

It is reported that Mr. Hincks as Inspector General intends to press the executive of Canada to issue £3,000,000 worth of Canadian debentures to be deposited with Bankers in England, to enable them to loan the necessary funds to the Grand Trunk Railway. This act would be very unwarrantable, and if it is done the executive must answer for it. No work has as yet been done on the road.

The Powder Mills of C. Kelly & Co., at Cumminsville, were blown up last week, with 300 kegs of powder in them. No lives lost. The discharge was heard at a distance of 10 miles.

In New Brunswick the leading temperance men have issued a circular stating the reasons why the late anti-liquor law has failed in its effects. The chief reason is the fact that it allows the sale of beer.

The North American and Canadian, two papers that mutually copied only three months ago, violent articles written against us by each other, are now denouncing each other as unprincipled. We never believe that the editor of the Canadian is one of the meanest lickspittles that the political corruption of Canada ever cast up from its sinks. It is not to be wondered at that when the North American is doing us day the Canadian should be on the side of political knaves.

M. PEARSON, THE LARGE 103, Successor to J. McDONALD, YONGE ST.—A newly imported stock of fall goods, of every description, sold at low rates, will be found at this establishment with attentive clerks. Farmers and others visiting the city would do well to call and examine. See the advertisement on this page.

A few of our numbers of last week were defective and were delayed, owing to an accident in the delivery of paper.

RECEIPTS. J. R. S. of Fort Credit, for three half yearly sub. \$1 1/2, which having been paid 4 months after the time leaves \$3 still due from them or 1s 3d each. J. R. D. Lawrence, \$3 pays for 1852-3, leaving \$1 due for 1851.

Communications. The paper to Miss A. H. Johnson has been regularly sent to "Norwood," Pickering instead of to Peterboro County. The mistake arose from the fact that Mr F. who sent the name did not state which "Norwood" was meant, there being two post offices of that name. His paper will be sent to Peterboro. J. C. of Cornwall \$1 on account of E. Phillips. This subscriber has had the paper all the year 1853 according to our books, and now owes a balance of \$1 1/2 still. Letter from Blenheim, regarding the habits of serpents will appear in our next. "The Old Mill" poetry of Mrs. C. Dunn will appear in our next. Poetry by D. Toton's, will also appear.

PROTECTION FROM LIGHTNING!! BY E. V. WILSON AND H. PIPER & BROTHER.

(ON THE PRINCIPLE OF JAMES FRANKLIN) ELECTRICIAN AND PLATINUM-METALLIC BATTERY, AT THEIR WHOLESALE AND RETAIL.

Lightning Rod Manufactory, On Yonge St. between King and Adelaide Sts., TORONTO, C. W.

At which place we beg to offer our Superior Metal Twisted Anodes, Iron Lightning Rods, with Zinc Protectors, and Electric Protective Elements combined in their Manufactory, thus rendering them equal to Copper as conductors. They are in fact, twice, and four times the length, with accurately fitted brass screws connecting joints, an entire new style of metallic attachments for light or frame buildings, also, Glass Insulators of a novel and ingenious construction, forming a lock. The whole combined with a solid platinum Silver Point, fourteen inches long, surrounded at the base with three angular resistive masses, which possess the power to an extraordinary extent, of discharging the opposite elements of the most fearful thunder storm, and embrace the entire principle of safety to the present time; the whole constituting the most magnificent and perfect Patent conductor ever presented to the public. The public are cautioned against purchasing Rods of any person or firm, unless they possess a certificate of agency, signed by E. V. Wilson, L. R. Piper, and their associate, stamped with the name of the Patentee, as we are not answerable for rods purchased by any other means than our certificates above. Your attention is called to the above caution from the fact, that several parties have offered to the public an inferior article, which is not only inferior to the above, but is not worth anything as Electric Points, nor do the parties offering them know anything about the laws of electricity, consequently it is dangerous to employ ignorant men to protect your buildings and your lives.

E. V. WILSON, & H. PIPER & BROTHER.
