Gentlemen

When you were manufacturing  
Engines and Mill machinery in 1872 you  
supplied me with all the machinery for my  
Saw-Mill at Midland.

Every part of the work was  
strictly first class and gave me the greatest  
possible satisfaction. I never saw as good a lot  
of Machinery. The material was the very best quality  
and the workmanship unsurpassed. Until  
my Mill was burned and rebuilt I did not  
fully realize how entirely you carried out  
your agreement to do me a first class job.

The Engines, Boilers, Circles, Gauges, and  
connections worked splendidly. In the erection  
of the Machinery we had no trouble everything  
was according to the plans and specifications  
furnished and was put together without alteration  
of any kind.

I am pleased to learn  
that you have repurchased the patterns and plant  
you sold to the McGill Manufg Co and intend  
to manufacture all kinds of Mill Machinery. You  
shall have all the work I can send you.

Yours very truly
