

Publisher's Department.

The Little World from Australia.

This ingenious and remarkable piece of mechanism which attracted so much attention at the late Toronto Fair, is now on exhibition at No. 70, King Street West. It represents nearly all the trades and industries of life performed by automata, every one performing their allotted task as naturally as life. It is a very interesting and entertaining exhibition, and should be seen by all those who have not already patronized it, as the price of admission is very small, only ten cents. During its travels through the East Indies, China, Australia and New Zealand the proprietor, Mr. Robertson, has collected a museum of rare curiosities, which are exhibited free of charge. Hours of exhibition, Two to Five and Seven to Ten o'clock p.m.

ADVICE TO MOTHERS.—MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

WHAT IS CATARRH?

Catarrh is a mucopurulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxomoea, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat: up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue. Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fail in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the business managers—Toronto Mail. MESSRS. A. H. DIXON & SON, 305 King St. West, Toronto, Canada. Inclose stamp for their treatise on Catarrh.

Can't Keep House.

BOWMANVILLE, ONT., Dec. 5, 1882.

Messrs. SETH W. FOWLE & SONS, Boston.

Dear Sirs:—We suppose it is no new thing for you to receive congratulations on the success of your valuable cough remedy, **DR. WISTAR'S BALSAM OF WILD CHERRY**; but perhaps at this time a word or two from us will prove out of place. Although the Balsam has not been advertised to any extent in this locality, our sale of it is very large and the demand is increasing, which is due to the universal satisfaction which it gives to our customers. We have never had a single complaint, and husbands tell us their wives will not keep house without it. We would like you to do a little more advertising in this country for we believe your Balsam better known, its sale would be increased ten-fold.

Yours truly,

STOTT & JURY,
