Scientific and Useful.

BEef CAKE.—Chop some beef that is rare, with a little fat bacon or ham, season with pepper, salt and a little onion, mix well and form into small cakes. Fry them a light brown and serve with a good gravy made of soup stock, thickened with brown flour.

PEARMARNALADE.—Skin the pears and boil till very tender; weigh them; take half their weight in sugar, put in a saucepan with a little water and boil it, skimming it well; boil till a thick syrup is made; add the pulp of the pears and little essence of cloves. It is very nice for filling tartlets.

CURED OF DEAFNESS.—Harry Ricardo, of Toronto, was deaf for eight years, and also suffered with Chronic Rheumatism. After all else failed, Hayward's Yellow Oil cured both afflictions. Yellow Oil is a reliable internal and external remedy for all painful and inflammatory complaints.

BREAD PANCAKES.—Take stale bread and soak over night in sour milk; in the morning rub through a colander, and to one quart add the yolks of two eggs, one teaspoonful of salt, one teaspoon of soda, two tablespoons of sugar and flour enough to make a batter a little thicker than for buckwheat cakes; add last the well-beaten whites of the eggs and bake.

CRANBERRY SAUCE.—Pick over and wash the cranberries, and put in the preserving kettle with half a pint of water to one quart of berries; now put the sugar—granulated is the best—on the top of the berries; set on the fire and stew about half-an-hour; stir often to prevent burning; they will not need straining, and will preserve their rich colour cooked in this way. Never cook cranberries before putting in the sugar. Less sugar may be used if you do not wish them very rich.

WASHING WOOLLENS.—To wash wool-len goods so that they will not shrink, put three or four pails of cold, soft water in the washtub; then take two tablespoonfuls of borax and one-half pint of soft soap, dissolve in about one quart of hot water; when thoroughly dissolved stir into the tub of water. Put in goods and let stand an hour or two before washing. Rinse in cold rain water. Bright colours should stand but a short time.

FOUND AT LAST!—A remedy that not only relieves, but cures that enemy of man kind, Consumption, as well as the numerous satellites which revolve about it, in the shape of coughs, colds, bronchitis, sore throat, influenza, etc. The remedy we allude to is Dr. Wisner's Balsam of Wild Cherry, prepared by Seth W. Fowle, & Son, Boston.

APPLE MARNALADE.—Take nice, sound russet apples, pare and core them; cut in small pieces, and to every pound of fruit add one pound of sugar; put the sugar to boil with enough water to dissolve it in a preserving kettle; add one large lemon to every four pounds of fruit; boil all this together until the syrup gets thick, then add the apples and boil until it looks clear. This is very nice made half quince and half apple.

TOMATO SOUP.—One dozen ripe tomatoes, about one quart of weak soup stock. If the stock is strong use less, adding water to make the required amount. Boil about one hour together with onion cut up. Just before taking up rub two heaping table-spoonfuls of flour smoothly into a little water, and stir carefully into the soup; allow it to boil until it thickens. Strain all through a wire sieve; season with a tablespoonful of butter, a little salt and red pepper. Slice a lemon very thin, put it into the bottom of the tureen and pour the soup over it. Serve at once.

ALLEN'S LUNG BALSAM.—Is the great modern remedy for Coughs, Colds, Consumption, Asthma, Croup and Bronchitis. It is recommended by Physicians everywhere, who are acquainted with its great usefulness.

IN CASE OF SCALDING.—In case a child or other person should accidentally drink scalding water, cod liver oil and lime-water, mixed in equal parts, should be administered, a tablespoonful at a time, to the scalded throat, given slowly, so that the healing mixture trickles down almost of itself. This not only heals the injured part but supports the strength of the child as food would until other nourishment can be taken. For external scalds and burns there is nothing so cooling and curative as an ointment of oxide of zinc, but as every one does not have this in the house it is as well to plunge the injured part in cold water as to do anything else, whenever the plunge is practicable, and, when it is not, to keep cloths upon it wrung out of ice water. This excludes the air as any rate, and allays the pain, allowing the strength to rally, while it is within the reach of every body.

One Experience of Many.  
Having experienced a great deal of "Trouble" from indigestion, so much so that I came near losing my life!  
My trouble always came after eating any food—  
However light and digestible,  
For two or three hours at a time I had to go through the most excruciating pains, "And the only way I ever got "Relief!"  
Was by throwing up all my stomach contained in one cance the pains that I had to go through, until "At last!"  
I was taken! "So that for three weeks lay in bed and could eat nothing!!!  
My sufferings were so that I called two doctors to give me something that would stop the pain.  
Their efforts were no good to me. At last I heard a good deal "About your Hop Bitters!" And determined to try them.  
Got a bottle in four hours I took the contents of One!!!  
Next day I was out of bed, and have not been a "Sick!"  
Hour, from the same cause, since. I have recommended it to hundreds of others. You have no such "Advocate as I am!"  
GEO. KENDALL, Allston, Boston, Mass.

Downright Cruelty.  
To permit yourself and family to "Suffer!"  
With sickness when it can be prevented and cured so easily  
With Hop Bitters!!!  
None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Hops" in their name.

## WHAT IS CATARRH?

Catarrh is a mucopurulent discharge caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are:—Morbid state of the blood, as the bright corpuscles of tubercle, the germs of syphilis, mercury, toxemia, from the retention of the effete matter of the skin, suppression, perspiration, badly ventilated sleeping apartments, and other poisons that are got into the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue. Some time since a well-known physician of forty years' standing, after much experimentation, succeeded in discovering the necessary combination of ingredients which never fail in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the business man—Toronto Mail, Messrs. A. H. DIXON & SON, 395 King St. West, Toronto, Canada. Inquire for their treatise on Catarrh.
