A SAVING OF 40%

IS MADE BY USING OIL FOR
 FUEL UNDER

The Aerated Fuel Co.

SPRINGFIELD, MASS.

SYSTEM

This System uses oil, with a higher pressure of
 air, and is adopted in the United States and Canada
 for all kinds of iron and steel forging, tempering,
 welding, annealing, etc.; for generating steam;
 for burning lime, cement, sewer pipes, terra cotta,
 brick, etc.; for heating chemicals and asphalt; for
 japanning; for oxidizing lead; for drying sand,
 salt, etc.; for singeing cloth, etc.
 Its advantages over coal and wood are:—A per-
 fectly even fire, at all times under complete control,
 free from gas and dust, and ready for use in a min-
 ute after turning valve, and no increase in insur-
 ance rates.

Some of the companies now using this system in
 Canada are:—The Massey-Harris Company, The
 Wilkinson Plough Company (of Toronto), The D.
 F. Jones Manufacturing Company, The Spring and
 Axle Company, and George Gillies (of Oshawa),
 The Dominion Bridge Company (of Lechmere).
