SEWING MACHINES.

No. 8.

THE BEST AND CHEAPEST.

This Machine embraces all the latest improvements, and has all the desirable points that can be claimed for any of its competitors, while the inventor has availed of the objectionable features of other Machines.

It has no noisy Shuttle to thread or wear out, but simply a Bobbin that never wears. It is simple of construction, easy to handle, and runs quietly and rapidly. There are now 25 of these Machines in one factory in Toronto, running from 1,200 to 1,500 stitches per minute. This is a test of durability no other Machine could stand.

Send for Circular.
