WHAT TO DRINK AND WHERE TO GET IT .- Some ngenious individual has lately been enlightening the to the disorders that usually result from the above-public with—what they ought to eat and how to cock industrials. BRISTOL'S SARSAPARILLA is it. We propose doing the same by-what to drink indubitably and where to get it; and, when everyone is crying out about the weather being so awfully bot, we don't know anything that will give so much satisfaction as the celebrated St. Leon Water. If you have been indulging too freely at table, or (vulgarly speaking) getting tight, a glass or two of the St. Leon will put you all right. If you have got a headache, or feel sick at the stomack, or any way out of sorts, one or two glasses will relieve you at once. In fact, no family ought to be without it; and it is particularly adapted for children, who drink it readily.

THE PERFUME

OF THE WESTERN HEMISPHERE!

FRESH FROM LIVING FLOWERS.

MURRAY & LANMAN'S

FLORIDA WATER.

THIS rare Perfume is prepared from tropical flowers of surpassing fragrance, without any admixture of coarse essential oils, which form the staple of many "Essences" and Extracts for the Toilet. Its aroma is almost inexhaustible, and as fresh and delicate as the breath of Living Flowers.

WHAT ARE ITS ANTECEDENTS?

For twenty years it has maintained its ascendancy over all other perfumes, throughout the West Indies, Cuba and South America, and we earnestly recommend it to the inhabitants of this country as an article which for softness and delicacy of flavor has no equal. During the warm summer months it is peculiarly appreciated for its refreshing influence on the skin and used in the bath it gives buoyancy and strength to the exhausted body, which at those periods is particularly desirable.

HEADACHE AND FAINTNESS

HOSTETTER'S **CELEBRATED**

STOMACH BITTERS

A pure and powerful Tonic, corrective and alterative, of wonderful efficacy in Disease of the STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES: Prevents Fever and Ague, and Bilious Remittent Fever; fortifies the system against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels; steadies the nerves, and tends to PROLONG LIFE.

REMEDIAL PROPERTIES:

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, De-pression of Spirits, Constination, Colic, Intermittent Fevers, Sea-Sickness, Cramps and Spasms, and all Complaints of either Sex, arising from Bodily Wenkness, whether inherent in the system or produced by spe-

Nothing that is not wholesome, genial, and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.

cial causes.

It is well to be forearmed against disease, and, so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water, and other external causes, HOSTETTER'S BITTERS may be relied on as a Lafeguard.

In districts infested with Fever and Ague, it has been found infallible as a preventative and irresista-ble as a remedy. Thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvellous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dau-gerous alkaloid, are not unfrequently restored to health within a few days by the use of HOSTET-TER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dyspersia and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constination superinduced by irregular action of the digestive and secre-

Persons of feeble habit, liable to Nervous Attacks, Lownest of Spirit, and Fits of Languer, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Bilious Colio is immediately assuaged by a single dose of the stimulant, and by oc-casionally resorting to it, the return of the complaint may be prevented.

For Sea-Sickness it is a positive specific-either removing the contents of the stomach, and with them the terrible nausea, or relieving the internal irrita-tion by which the disposition to vomit is occasioned. As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from OLD AGE, it exercises the electric influence. In the convalencent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is The Only Safe Stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachies of the day.

The fact is well known to physicians that the basis of all the medicinal stimulants of the pharmacopæia is fiery and unpurified alcohol, an article which no medication can deprive of its pernicious properties. The liquors of commerce are still worse. They are all adulterated. Hence the faculty, while universally admitting the necessity for diffusive tonics, hesitate to employ those in common use lest the remedy should prove deadlier than the disease. During the last twenty years, the quality of these articles has been continually deteriorating, and it is notorious that the fluids which bear the names of the various spirituous liquors, are fiavored and fixed up with corrosive drugs, to a degree which renders them dangerous to the healthy and murderous to the sick. Under these circumstances, medical men are glad to avail themselves of a preparation absolutely free from those objections, and combining the three invaluable properties of a stimulant, a corrective, and a gentle laxative. HOSTETTER'S BITTERS are therefore held in high estimation by our most eminent practitioners, and bid fair to supercede all other invigohave constantly for sale at their old rants, both in public hospitals and in private pracesetablished Foundery, their superior sice. No family medicine has been so universally, Bells for Churches, Academies, Factories, Steamboats, Locomotives, Planintelligent portion of the community, as COSTET-TER'S BUTTERS.
