The Competitions of the Dominion Associations at Halifax.

The annual competition of the Dominion artillery association began at Point Pleasant, Halifax, on the 11th. There were about 90 men in camp—the tents pitched

nearer the Arm than last year. The officers' mess was the summer house on the bluff near the point on the side next the Arm. The location was much superior to that of last year.

The weather was not good the first day. Fog, and subsequent rain, left but about two hours for the firing competitions and only one detachment was able to compete. No. 1 detachment of No. 2 battery, H.G.A. finishing in the afternoon; No. 1 detachment of No. 3 battery (Captain Maxwell's) finished except the sharpshooter. Two detachments of No. 3 battery performed the "A" shift. Sergeant MacDonald's detachment did the shift in 11.18. They displayed excellent judgment, and the shift was done in beautiful style. Corporal Cunningham's detachment lost by exceeding the time limit—15 minutes. It is not the quickest time that wins in the shift, but the detachment that does the work best within 15 minutes! Further shifts were impossible on account of the rain. The Halifax men who were unable to finish the opening day had to wait till Saturday.

General Montgomery-Moore granted permission to the artillerymen to visit the fortifications of Halifax. The men had to go in uniform, and in charge of a responsible officer.

Captain Craig, Lieutenant Tanner and 8 non-commissioned officers and men of the Pictou Garrison artillery arrived in camp Tuesday evening.

The second day for the Dominion artillery competitions at Point Pleasant brought fine weather, beautiful enough to make amends for the disagreeable character of the opening day. It was warm, but the breeze from the ocean tempered the air delightfully.
