Walker House Annex, Toronto, dur-  
ing Toronto Exhibition and  
Millinery Openings.**Mercantile Summary.**

THE first year's experiment with the newly established lobster hatchery at Picton has proved highly successful, about sixty-five millions of young lobsters having been hatched out and placed in the sea after they had attained a few weeks growth.

In their fall review, season of 1892, Field &amp; Stone, San Francisco, report as follows on California prunes: "The output in 1891 was 30,000,000 pounds. We estimate this season that not over 20,000,000 to 21,000,000 pounds will be produced at the outside. The crop in the Santa Clara Valley is light; in Napa and Sonoma counties about 60 per cent. of an average crop, and in the Southern part of the State the crop is also light.

Some eighteen months ago Frederic La-fleur engaged in the furniture business in Montreal, claiming at the time a capital of about \$3,500. He has trusted out his furniture freely on credit to a weak class of buyers, and getting behind in payments, has been asked to assign. He owes \$15,000, mostly distributed among many of the furniture factories of the Dominion. This includes a claim of his wife for dower.

THE Canadian Pacific Railway had arranged, says the Montreal Star, to take over on September 1st, the Montreal and Western Line, running from St. Jerome to Ste. Agathe. This road was built by Mr. H. J. Beemer, and owned by a syndicate composed of the Hon. Messrs. Chapleau, Nantel and others. By a condition of the lease the original owners were to build the line some sixty miles west of Ste. Agathe. This extension is to be proceeded with at once. It would open up a rich lumber country.
