

This manuscript is a product of the Canadian Studies Research Grant Program. The program promotes research in the social sciences, humanities, business, health, environment and law with a major emphasis on Canada or in the context of the history of North American relationships and the social, cultural, political, and economic issues that impact on these relationships in the 1990s.

Research grants are designed to assist individual American scholars, a group of scholars, and other workers with a cooperating Canadian institution in writing an article-length manuscript or publishable essay for submission to the development of Canadian studies in the United States and reporting their findings in scholarly publications.

According to the terms and conditions of the grant, the rights of the manuscript remain the exclusive property of the researcher. Copies of the manuscript are provided to the Embassy and the Department of Foreign Affairs and International Trade.
