

The following appeal is published by a few friends of Zion Church, who besought their Pastor to allow them to place it before the public, to which request he gave his consent, hoping that a blessing might result to its readers. It will be seen that it is chiefly to one principle in human nature to which appeal is in this form made. Another and different kind of appeal will be made in due course; but it has appeared to me that there is some danger in these days of overlooking the more grave aspects of our relation to a Righteous Ruler.
