

A PRACTICAL ARITHMETIC.

THE NEW ARITHMETIC.—The motto is : "No routine methods ; a maximum of practice with a minimum of theory."

GRAFTON'S GRADED ARITHMETIC

Published in Parts. Fully Illustrated.

By E. W. ARTHY, Superintendent of Schools, Montreal.

PART I.—Comprising the four Simple Rules, with exercises introductory to Canadian Money, Weights and Measures. Numbers up to 10 must be taught by means of objects. This book starts from the *ten*, and presents in easy steps the operations involved in adding, subtracting, multiplying and dividing numbers. It contains a very large number of exercises for both mental and written drill.

PART II.—Comprising Canadian Money, Factors and Multiples, Common and Decimal Fractions, Compound Quantities.

PART III.—Comprising Denominate Fractions, Practice, Proportion, Metric System of Weights and Measures, Mensuration, Percentage with its simple applications to Profit and Loss, Interest and Discount.

Each Part contains carefully graded exercises sufficient for two years. All new work is introduced by easy sight examples, the object being to lead to an almost unaided perception of processes and principles, before they are formally discussed or committed to memory.

Price, 15 cents a part, 96 to 112 pages.

A Teachers' Manual accompanies each book of the series, giving full directions in using the book, as well as answers to Problems. Price, 35 cents.

Authorized for use in the Province of Quebec.

Adopted for use in the Public and High Schools of Montreal.

THE METRIC SYSTEM.

U.S. HOUSE OF REPRESENTATIVES' COMMITTEE FAVOURABLE TO IT.

WASHINGTON, D.C., March 17, 1896.—The House Committee on Coinage, Weights and Measures is in earnest in its efforts for the adoption of the metric system of weights and measures in this country. It has reported favourably a bill requiring its adoption in the departments after July 1, 1898, and throughout the country in 1901.

A Committee of the British House of Commons has also reported in favour of introducing the metric system.
