

STANDARD BOOKS.

Landscape Gardening.

By F. A. Waugh, professor of horticulture, University of Vermont. A treatise on the general principles governing outdoor art; with sundry suggestions for their application in the commoner problems of gardening. Every paragraph is short, terse and to the point, giving perfect clearness to the discussions at all points. In spite of the natural difficulty of presenting abstract principles the whole matter is made entirely plain even to the inexperienced reader. Illustrated, 12mo. Cloth. . \$.50

Fungi and Fungicides.

By Prof. Clarence M. Weed. A practical manual concerning the fungous diseases of cultivated plants and the means of preventing their ravages. The author has endeavored to give such a concise account of the most important facts relating to these as will enable the cultivator to combat them intelligently. 222 pp., 90 ill., 12mo. Paper, 50 cents; cloth. . . . \$1.00

Talks on Manure.

By Joseph Harris, M. S. A series of familiar and practical talks between the author and the deacon, the doctor, and other neighbors, on the whole subject of manures and fertilizers; including a chapter especially written for it by Sir John Bennet Lawes of Rothamsted, England. Cloth, 12mo. . . . \$1.50

Insects and Insecticides.

By Clarence M. Weed, D. Sc., Prof. of entomology and zoology, New Hampshire college of agriculture. A practical manual concerning noxious insects, and methods of preventing their injuries. 334 pages, with many illustrations. Cloth, 12mo. . . . \$1.50

Mushrooms. How to Grow Them.

By Wm. Falconer. This is the most practical work on the subject ever written, and the only book on growing mushrooms published in America. The author describes how he grows mushrooms, and how they are grown for profit by the leading market gardeners, and for home use by the most successful private growers. Engravings drawn from nature expressly for this work. Cloth. \$1.00

Handbook of Plants and General Horticulture.

By Peter Henderson. This new edition comprises about 50 per cent. more genera than the former one, and embraces the botanical name, derivation, natural order, etc., together with a short history of the different genera, concise instructions for their propagation and culture, and all the leading local or common English names, together with a comprehensive glossary of botanical and technical terms. Plain instructions are also given for the cultivation of the principal vegetables, fruits and flowers. Cloth, large 8vo. . . . \$3.00
