EDUCATORS HAVE EXCITING SITTING

Discuss Everything From Principals to Double-Class System.

No parallel for the scenes at the board of education meeting last night had been furnished in the history of Toronto. The administration building, College street, was thronged by members of rival deputations before the meeting opened. The visitors blocked the door and protested against the efforts of those having regular business at the board to effect an entrance. The various parties made by speakers were applauded, received with sounds of resentment or loud laughter.

One of the most representative deputations was that from Williamson Road Public School to protest against a change in the principalship.

Dr. John Noble made a stirring speech against the removal of T. Davis from the principalship of Williamson Road. He pointed out that the large school had begun the school year on September 2 with great enthusiasm under Mr. Davis, who had been an inspiring force of all the school activities for the past two years. The children would be discouraged and the teachers hampered and the community injured by the proposed sudden change of principals.

In a discussion of high school fees from pupils from outside municipalities, Dr. John Noble asked: "What right have the municipalities to sponge on the city of Toronto?"

Dr. John Hunter moved for a special committee to take up the Judge Lennox investigation report. Dr. Noble said that the board did not want a post-mortem. The heads of the building department had gone. The trustees were "right these men came out personally clean, and wished them good luck." The motion for the special meeting was negatived.

Trustee McCrae said the property committee had begun the outlay of \$1,500,000 for new buildings with \$50,000 in fees for architects. Under the circumstances Dr. Noble's motion was the most idiotic resolution he ever offered. Mrs. Groves said the double unit system is "a bad business for the timekeeper and I'm going to oppose it on that account."

The motion was sent to the management committee. A deputation from North Riverdale asked for the immediate construction of a temporary building for a school, as the children had been waiting for the past two years for a school. Five hundred children reside in the no school district.

In the presence of the public school teachers against the board's appointment of a high school teacher as principal of Ryerson public school a protest citing various bylaws was read from the Public School Teachers' Association.

Principal W. G. Morrison of Pope Avenue School wrote refusing to assent to his being relieved from the principalship. His letter said that for 21 years he had given his whole attention to public school teaching without one complaint being made against him in writing, and no charge had been pressed against him. He demanded British justice and British fair play, as his character was his life.

C. J. Dougherty was appointed acting superintendent of buildings. Mrs. A. C. Courtney, chairman of the management committee, explained that she was in accord with the committee's report calling for Mr. Davis to be taken from Williamson road public school.

DEFER HEARING ON PAPE AVENUE LINE

The question of the Pape avenue car line still hangs fire. Some argument took place before the Ontario Railway and Municipal Board yesterday between Chairman D. M. McIntyre, G. R. Geary and R. C. Harris over the matter of having the Toronto Hydro-Electric Commission co-operate in connection with the submission of plans, as it is contemplated to widen the thoroughfare.

The further hearing was adjourned until Tuesday next. The Hydro authorities will be notified in the meantime, and if a representative is not present an order will be made on the plans submitted.

NEW SCHOOL BUILDINGS.

As the result of a suggestion from Trustee C. A. B. Brown, it is likely that a number of additions, costing between \$3,500 and \$4,000, will be built to schools at present congested and where pupils are housed under very uncomfortable conditions or where the schools are running on half-time schedule for pupils. Oakwood, which has between 700 and 850 pupils, is mentioned as one of the schools that will be accommodated.

MAYOR ADVOCATES COMPLETE CONTROL

Would Oust Directors and Place City Commissioners Over Exhibition.

Bonuses to certain Exhibition employees came in for certain criticism at the board of control meeting yesterday. Controller McBride stated that he and the mayor objected, but the bonuses were passed by a majority of one subject to the approval of the solicitor.

City Solicitor Johnston, who was asked if he had given a written opinion on the legality of the bonuses as well as the city. The advice was asked verbally and I do not think it necessary to give a written reply. The point is very simple. The directors have power to grant the bonuses."

Cont. McBride: "I will move that you give no opinions except in writing."

Mr. Johnston: "I would be pleased if you would move that I resign as solicitor for the Exhibition Association."

Cannot Serve Two Masters Mayor Church: "He can't serve two masters."

The mayor stated that the men who were given the bonuses got increases in 1917 and two increases in 1918, some of them as much as \$600, and now another was given. "There should be no bonuses," he said. "The salaries for the year should be in the estimates."

Cont. Maguire: "There is just the trouble with life directors that the control of the Exhibition passes out of the hands of the elected representatives of the city."

Mayor Church: "I think the control of the Exhibition should be taken out of the hands of the present directors and placed under a board of five commissioners to be appointed by the city council. There should be a

Ever thought of endowing your home?

It's very easy to do it.

Suppose—having purchased a house and effected a mortgage on it—you should die suddenly!

Wouldn't your wife and family have a hard time meeting the interest on the mortgage and discharging the principal sum when due?

Not so, however, if you were insured under an Imperial Endowment policy for the amount of the mortgage. A small amount invested each year in such a policy will enable your heirs to pay the mortgage immediately after your death, even if it should occur next week. On the other hand, if you should live until the policy matures you can pay off the indebtedness yourself out of the amount of the Endowment.

Have you a mortgage on your home? Then let us show you how you can make sure of its repayment whether you live or die.

Write today—tomorrow you may be uninsurable.
