No Truth in Story Alleging Serious Friction Among Members of Cabinet.

Premier Whitney was asked what he hought of a statement published last night, headed "A Clash in the Cabinet." It had evidently been written the day before, as it spoke of a cabinet council been held since Thursday. The article ccused Hon. Adam Beck of disputing

"With regard to the statement in The MONTREAL, TORONTO, WINNIPEG, VANCOUVER, HALIFAX the question was not a serious one it would be too ridiculous to notice.

"The article is absolutely untrue. There is no foundation for any statement made in it. There has been no friction in the cabinet. Mr. Beck has had no negotiations of any description, directly or indirectly, with the Ontario Power Company. In fact, the whole story is a falsehood."

Premier Whitney was further questioned as to any developments following the appearance of the representatives of the Ontario Power Company in Queen's Park.

"I prefer not to go into the question to-day," was the reply, "but I have no doubt whatever the public will be able to secure power at reasonable and satisfactory rates."

Music at New St. Andrew's.

The musical services which have been such a feature monthly in St. Andrew's Church, King and Simcoe-streets, will be continued to-morrow evening, the first Sunday in November. The contralto aria, "God Shall Wipe Away All Tears," from Sullivan's "Light of the World"; Gounod's "Send Out Try Light," Mendelssohn's motet, for soprano and chorus, "Hear My Prayer," and a selection by the quartet will be sung.

Dr. Norman Anderson is organist and cholmaster. Rev. T. E. Brown will preach.

B. C. Amalgamated Coal.

Under "Hints to Investors' in The Montreal Star, we notice B. C. Amal. Coal Co., and as a great interest is now being taken in this company, I think it is advisable to give you the latest news regarding the same, so that these questions can be answered correctly. On one property they have six outcroppings of fine quality, also a tunnel has been run in 200 feet, which shows a fine class of coal for coking purposes. There is no doubt that the coal is there in large quantities and A1 quality. The intention of the company was to start operations on the property the first of the year, but as the stock has been so favorably taken we have money enough in our treasury to get to work at once, which we intend to do, and should have one of the properties producing by the forepart of next summer. The head men business men of Portland, Oregon, and do not intend to make a failure of this proposition. We can show you letters regarding the reliability of these Cornwall, Nov. 2.—(Special.)—John A.

They will reside at Alexandria.

proposition. We can show you letters regarding the reliability of these parties at our office. The coal by test has proven to make the best coke that can be procured, having no sulphur and eight per cent. ash, being just enough to hold the coke properly to gether. It would further be impossible to tell how much coal is on the properties, even when the property is developed largely, and could not be guessed at by drilling. We expect in two years to have one property producing 2000 to 3000 tons per day. I consider you are completely wrong in proposition. We can show you letwill reside at Alexandria.

illness of Witnesses Delays Trial in the year 1896, ten years ago. It was the only coal stock that had ever been offered to the public at large in the Dominion of Canada up to that The criminal assize court will open time. The stock was put on the market in the spring of 1896 and offered Monday. There are only five cases on to the people at ten cents a share. The first allotment was sold to school teachers, clerks, merchants, doctors, servant girls, carpenters, and men and omen in all walks of life. This brought about the most cheering and grati women in all walks of life. This brought about the most cheering and gratifying results, and poor men awoke to find themselves independently rich from a small investment. For \$100 one thousand shares were secured, and to-day this amount of stock has a cash valuation of \$285,000, and last year 1000 shares brought a dividend of \$10,600 (\$10 60 per share). Coal experts and engineers who have seen our properties and those of the Crow's Nest are fully agreed that ours are as good, if not better, for the reason that we are 500 miles nearer tidewater (Pacific coast), and our coal is superior for steam, domestic and smithing purposes, and fully equal for foundry and smelters' coke. Our Company controls 17,500 acres of coal land, estimated by coal experts to contain one billion four hundred million tons of coal such a vast experts to contain one billion four hundred million tons of coal, such a vast quantity that the supply would last 400 years at an output of 10,000 tons a day. One engineer has estimated that our land on Coldwater River has a net valuation of one billion five hundred million dollars, with the coal in the ground as a basis of calculation. Our shares will be increasing in value from year to year, the same as has been the case with the Crow's Nest Pass Coal Company's stock. In the year of 1900 those shares were worth \$36 from the dividend it then paid. In 1903 it had reached the \$100 mark, and in the fall of the same year it sold for \$125, and to-day its market price is \$285.

For \$250 you can now buy 1000 shares of British Columbia Amaigamated Coal, which in a few years will pay you yearly in revenue more than you can earn in any capacity as a salaried man. For \$100 you can secure 400
