Native Wine

as you probably know, is pressed from the Canadian grape.

You will also have noticed how widely these grapes differ, how much larger, richer and more luscious some are than others.

We have two grades of native wine. They differ just as do the grapes from which they are made. Our best wine is pressed from the pick of the season's yield — which is

NORMAL SCHOOL CONVERSAT. There Was a Large Gathering

Speeches and a Promenade Concert Followed.

The corridors and theatre of the Toronto Normal School presented a pretty appearance last night, when the annual conversazione was held. There was a large gathering of pupils and friends, and a most enjoyable evening was spent. Prof. Kirkland occupied the chair, while a pleasing program of readings, vocal and instrumental music was rendered. On either side of the chairman were seated Prof. McFadyen, Prof. Hume, Rev. W. P. Talking, and Principal Scott. Those who contributed to the program were: Misses Marle Wheeler, Lelia Metcalf, Rena McCullogn and Mrs. Knox-Black. Prof. McFadyen delivered a short address on the subject, "Methods of Study." After the concert Napolitano's orchestra supplied delightful nuisic for a promenade through the corridors and departments.

PUBLIC SCHOOL BOARD.

Matters of More or Less Import-ance Received Consideration Last Night.

day Dec. 19.

Mr. Lewis Brown inquired the number of teachers also their names and schools. He also gave notice of motion that the Board hereafter employ not more than one member from any one family.

family.

The Finance Committee recommended the nilowance to the principal of the City Model School of \$100 from the Government grant, for extra services. This was adopted, and also the recommendation re the teeth of Public school children.

Miss B. J. Wilson was appointed on the temporary list to Borden-street school; Miss G. Crown to Winchester-street school; Miss Goldsmith, to Victoria-street school.

The report of the Property Committee recommending the payment of \$5345 on the
building account, and \$87.78 on the school
account was adopted.

The Supply Committee report recommending the payment of accounts to the
amount of \$3168.86, and the transference
of \$100 from the appropriation for fuel
to the appropriation for express, was passgd.

to the appropriation for express, was passed.

The Board should have disposed of the report of the special committee re defective lighting, but were obliged to adjourn for want of a quorum.

JUST LIKE THEIR BROTHERS.

Ladies Who Want to Get on the School Board Organize in Secret.

It is the desire of many Toronto ladies to have one of their sex from each ward, on next year's Public School Board, and, in order to make arrangements for their election, a meeting was held at W.C.T.U. headquarters on Wednesday afternoon, but nothing is yet known of what then transspired. The ladies decided, for once, not to talk; but it is known that Mrs. F. S. Spence was made secretary-treasurer, and that a second meeting will soon be called to forward plans already made.

Mr. Sturrock sing a song, and then Dean Geikle rose to reply to "Trinity Medical Coollege and Graduates." while the boys sang "God Save the Dean," with mingled counter-cheers. He told of the ups and downs of Trinity since her foundation. He was greatly in love with the institution.

"It's a badthing to fall in love during your medical studies," said Dr. G ikke, and enlarged on the subject to the entertainment of the undergrads, who sang "Just One Girl," to show their independence of the Dean.

Cucumbers and melons are "forbidde Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. Those persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellog's Dysentery Cordial, a medicine that will give immediate relief and is a sure cure for the worst cases.

S. Ackerman, commercial traveler. Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatian, and three hottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather but have never been troubled with Rheumatism since, I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me."

THE TRINITY MEDICOS DINE

With Sir John J. Bourinot as Their Principal Guest.

GAY SCENE AT THE ROSSIN.

Those Who Occupied the Places of Honor Last Evening-Mr. George McGibbon in the Chair-Sir John in a Reminiscent Vein - The Dean's Popularity Was Evident.

Eight long dining tables, with a longer one across them and attretching the en-tire/length of the spacious banqueting room of the Rossin House, were what the Trinity Medical College men sat down to last night, on the occasion of the twentyfirst recurrence of their annual dinner. Graceful decorations of bunting in black and yellow, with here and there the Union Jack and Canadian arms tastefully festooned against the walls, made up the rest of the merely material trappings—apart from the menu, of course, which was of the best of its kind. Trinity has had many successful gatherings of the sort, but last night's entertainment bids fair to rival the best of them. Mr. George C. McGibbon, the president of the committee, made an admirable chairman, and the after-dinner efforts of the guests of the cross-table were many and brilliant.

the guests of the cross-table were many and brilliant.

In the Places of Honor.

Dr. Ballantyne of Knox College asked the blessing, and while the knives and forks got into play, the following were noticed in the places of honor: Sir John & Bourlnot (Clerk of the Dominton House of Commons). Hon Chancellor Allan, Mayor Shaw, Dr. Geikle (dean of Trintty), Dr. Briggs, Provost Weich, Prof Ballantyne, Mr J S Willison, Dr O'Reilly, W Douglas, William Houston, M.A., Rev J A Macdonald, hesides many representative Trinity graduates from all over the province.

When Mr, McGibbon had made his speech, introducing the after-dinner part of the program, and "The Queen" had been toasted in the usual enthusiastic way, Irr Sheurd proposed the toast of "Canada and the Empire." Of all Canada's claims to greatness, he thought, her educational institutions stood first, and of course Trinity was not the least of these.

Sir John Speaks.

Sir John Speaks.

Sir John Bourinot, replying, spoke feeiingly against long-winded speeches, as he had to listen to so many himself. Turnlag for a moment to his own career, he continued briefly in a reminiscent vein. Wilmott, Hood. Howe and the other names connected with the founding of responsible government in Canada were all well known to him. Our position in the Empire was the great thing Canada had to be proud of. Confederation had not led to any reputre with the Old Land, as it was feared it might in the House of Lords in 1397. The desire of England to encourage an alliance with the United States had led some to advise Canada to cultivate friendly relations with our American neighbors. But the advice was superfluous. The kindilest feelings now prevail and had prevailed in spite of the politicians.

Canadianism First.

Sir John Bourinot, however, did not think him the precedence of true.
