

Norfolk

At no time in the history of our store has the showing of Boys' Norfolk Suits been as complete as it is for this season — starting with the small sizes 22, 23 and up to 28, we show them in a variety of cloths that would make too long a story for newspaper ads to describe, and the same can be said of the sizes that start at 29, 30 and up to 34 and 35. Where new ideas were beneficial to the style of the Suits we have added them.

We want to get "next" to the School Boy.

FACTORY ON HAMILTON GRANITE PLANT 2 MILLIONS... The Frost Wire Company Will Move From Welland, According to an Agreement.

COMPANY TO BUILD NEW BUILDING

Rev. Dr. Marsh Thinks It Is Beneath Dignity of an Astronomer to Hear McKeel.

Hamilton, April 12.—(Special)—At a special meeting of the city council an agreement made by the civic industrial committee with the Frost Wire Company was ratified this evening. The company will build a new building on the corner of Sherman and Welland and will bring about forty hands. All the city did was to offer a fixed assessment of \$5000 for fourteen years. Some of the aldermen wanted the company bound in writing to employ a certain number of hands and to pay them at a rate named by the city, but they finally withdrew their objections. Mayor Gordon stated that the company would build a two-story brick factory 150 by 80 feet.

Roasted the Scribbles. Because the report published in the proceedings of the last meeting of the board of hospital governors, who, until recently, held their meetings behind closed doors, the governors spent considerable of the time at their meeting this afternoon roasting the offending scribbles. The superintendent Freeman two weeks leave of absence to visit some of the big hospitals across the border and awarded the contract of painting the inside of the institution to Wm. Davenport, who asked \$510. It was stated that the International Harvester Company was thinking of supporting a ward for the treatment of workmen who were injured at their work. The governor said Mr. Freeman wanted them to take over the ambulance service.

Their Annual Meeting. The annual meeting of the Women's Auxiliary of the Niagara diocese opened this morning in the schoolroom of the Christ Church Cathedral. There were about 20 delegates in attendance. In her annual address the president, Mrs. W. H. Wade, said she had found that she would have to retire from the office and she was made a life member. This evening a mass meeting was held in the Association Hall, Bishop Dumoulin presided. The speakers were: Rev. Norman Tucker, D.D., general secretary; Bishop Thornhill of Algoma, and Bishop Carmichael of Ontario, and the choir of St. Mark's and St. Luke's churches led the singing.

Rev. Dr. Marsh said this evening at the meeting of the Hamilton Astronomical Society, that he considered that it was beneath the dignity of an astronomical man to debate with J. S. McKeel, the St. Catharines flat earth man. This evening the cemetery board gave Chairman Ferguson power to let tenders for the painting and pointing of the cemetery chapel.

WRIT ISSUE RE STURGEON FALLS.

S. H. Blake as Counsel—Mr. McKeel Makes a Vigorous Denial.

A writ was issued yesterday morning at the instance of Alvin A. Beach of Sturgeon Falls on behalf of his fellow ratepayers in the school board case. The writ asks either for a declaration that the agreement entered into between the public school board and the Sturgeon Falls school board, which was a prior agreement of 1888, is void as being contrary to the provisions of the statutes, or for a declaration that the agreement is illegal, improvident, contrary to public policy and in derogation of the rights of ratepayers who are public school supporters of the said section.

S. H. Blake, K.C., has been retained as counsel and is prepared to carry the case to the privy council. Joseph Michaud, M.L.A., has published a document which he says is the handwriting of H. E. McKee, solicitor for the Sturgeon Falls public school board, and which he claims was a prior agreement of 1888. Mr. McKee was seen by The World last night before he left on the North Bay train, and was asked if he had seen the document. "No," he said, "I did not see it. If it is the paper signed by Heath it has nothing to do with the case. Mr. Heath made an agreement and undertook to build a mill and never carried it out. That all fell thru, and has nothing to do with the present affair. It is simply a lie."

Mr. McKee used very strong language in characterizing Mr. Michaud's document as a forgery. He has acted without any consideration for public interests in this matter. "How can they say public school supporters are disgusted? There was a public meeting at which they were all present and resolution was unanimously adopted to carry on the fight to the last."

During the day Mr. McKee stated that the error in the document was that the Protestants of Sturgeon Falls were undertaking this fight thru animosity against the Roman Catholics. "No bigger mistake could be made than that. It is not a religious question at all. It is a public or national question in the amount of the money we have, we are protecting the rights of all the people of the province. I think it is most unjust to raise against us the charge of rousing racial and religious hatred."

SOO PLANT WILL STAY DEADLY GUARANTEE IS WITHHELD, SAYS ATTORNEY-GENERAL.

Mr. Whitney continued the debate on the Soo guarantee bill in the legislature last night. The debate will proceed day by day till the vote is reached, which will probably be on Thursday night. In order to hasten the end of the session, the house will on Thursday and each day thereafter assemble at 2 o'clock and meet about 11.30. The debate was continued by the attorney-general, and Mr. Powell moved the adjournment. It was stated that three Conservative members, creditors of the defunct organization, Messrs. Hendrie, Beatty and Clark, would not vote on the bill. The majority will be swelled considerably. The attorney-general said the party lines will not be absolutely adhered to when the slow-down comes.

Mr. Whitney speaks. This was a proceeding so full of serious consequences to the people of the province, said the leader of the opposition, that the government taking such a step. They were all intensely interested in the advancement and prosperity of the province, and in respect there was no choice between either side of the house. It had come to his ears that the government was holding the guarantee of the Soo. That it had come from the truth, as the opposition were prepared to do everything in their power to prevent the advancement and prosperity of the Soo. That it had come from some of the government's accounts, and that the government was aware of some of the bubbles. If the reply persisted in painting such a rosy picture of the future of the Soo industries, he was taking away the argument for the proposition outlined in the bill. It was true that the industry was not such a stern necessity for the aid. Mr. Clergue had been lauded for his efforts, and Mr. Whitney was not there to say a word antagonistic to him. He was a man of great ability, infinite tact and cheerful optimism, and one of the admirable qualities he had shown was that he was not one of the men who had held high financial carnival and walked in the money of the people of the province. Mr. Clergue had told him to go in with the rest of the gang, and he deserved tribute for that consideration to his constituents.

Hard to Understand. It was impossible to understand what had occurred. The premier had said that the man who had been suspended there was of the gilt-edged variety. He had said there were over thirty millions in the bank, and he had said how much water was injected into the stock. Mr. Whitney had been told that the enterprise was capitalized at over one hundred million dollars, and that two or three years back that a crash was inevitable and no one was surprised when it came.

Help the Starving. Mr. Whitney spoke of the bill that would make happy the starving and the destitute in the province. He said that the bill would make the members of the house interested in the bill.

Can't Earn Expenses. The original grant to the railway, which the province was asked to take as security, was asked to take as security for several years to be able to carry on the road. It was well known that the purpose of carrying ore from the mines to the Soo, and it was well known that the purpose of the grant was to be used for the purpose of transportation by way of the Soo.

Hard Words for Justice. Statement in Blackley Letter Called a Scandalous Libel. Montreal, April 12.—(Special)—"A scandalous libel against the justice, the judiciary and the people of Quebec," was the strong expression applied by Judge Wurtelle at the Cooke-Blackley trial this morning, when denouncing the statement made in Blackley's letter to the effect that "it appeared that justice in Quebec was a thing to be bought and sold."

FRENCH DON'T ASK ADVICE ON SABBATH OBSERVANCE

La Presse Warns Ministerial Association to Refrain From Interference. Montreal, April 12.—(Special)—La Presse says: "A certain association of reverend gentlemen either living in Ontario or forming part of the minority in our province have asked Sir Wilfrid Laurier to impose very severe restrictions upon the people of this province regarding the observance of Sunday. This step is, to say the least, an injudicious one, but we wish to ignore the provoking side of the question, and go too far."

He has already suggested in the best possible manner, with perfect calmness, that if this association would place a reasonable limit to its demands, the Catholics of Quebec would not hesitate to second its efforts, as there are certainly abuses to correct. But with regard to the inoffensive things which our church permits, or tolerates, we cannot consent to have our manner of thinking controlled by others, and in spite of ourselves, we respect with the greatest care the liberty of our political opponents, both in the social and political fields, and we ask that the same treatment be meted out to us.

Saving Discard Between Races. "If this most respectable deputation taken means to ascertain the views of the majority in the Province of Quebec, and if it had brought with it also the authorized representatives of that majority, its proceedings would have been perfectly constitutional. As it is, it is simply a disturbing factor, and it is discarding among the different races and religions."

We call the attention of these gentlemen to the very imprudent nature of their manoeuvre, which can only produce opposite results from those wished for."

The divers worked until the waves on the lake caused the raft on which the air pump rested to pitch so that it was impossible longer to supply the man below with air. On the possibility that Hoar is still alive, air is still being sent down to him.
