A CALL TO THE ELECTORS.

Today is nomination day, and because of new legislation which is now in effect for the first time the field from which the electors can make their choice promises to be the largest in the city's history. It is to be hoped that the of assistant employment agent at the local branch large list of candidates may prove an incentive to citizens to turn out at the polls. One of the most regrettable things in connection with past elections has been the unusually small number of voters who exercised their franchise. Statistics indicate a tendency on the part of ratepayers to remain at home. Even when issues involving large capital expenditures are to be voted on the turnout has in many cases been directing the proposed expenditures, but by went. Not so, however, in regard to wailing Locking the stable after the horse The time to do the protesting is

most disappointing. This is not as it should be. Those who stay at home are usually the loudest critics of the men elected, or of the expenditures made. They had it in their power to do their share in selecting different men or in neglecting or refusing to exercise their franchise nullified their voice, as far as voting has run away is just as sensible as bemoaning what is being done in the council after it has on election day, and if every man and woman who has the right to vote will go to the polls it would be a big step forward in civic efficiency. There is only one chance in the whole year to vote. It only takes a few minutes to mark the neglecting their duty if they do not vote. More than that, by their indifference or neglect they are jeopardizing civic interests and the wel fare of the community of which they form a considerable sacrifice to themselves, the least the electors of London will have an opportunity "cushy" jobs. Yours for publication, of making their choice. They owe it to them-

selves, to their city, and, in a larger way, to

the Dominion, to investigate intelligently the

issues before them, the men who are offering

Toronto are clamoring against the possible omy. And the board is fully justified in having Trinity to the effect that those universities is neither here nor there. The pertinent question went into federation with Toronto on the units that of efficiency, and it is with respect to this derstanding that the province was to support factor that I am disposed to take issue with the but one central university. It is suggested linterpret it aright, is based chiefly upon the factor that considerable grants to Queen's and West- of efficiency. But it would appear to the writer that ern would be a sort of breach of faith with the board has not given a very comprehensive those denominational institutions.

ster up discredited centralization. If politicians efficiency than that of one central collegiate. But behind it? of thirty years ago made the mistake of trying efficacy of the specific "unit system" as planned by to centralize all higher learning in one city, the board of education as against the specific central. to centralize all higher learning in one city, the board of education, as against the specific central possible educational advantages for the citizens of and if Queen's was actually reprehended at collegiate plan, is not so readily palpable. Efficiency, one time by centralists for refusing to abandon other department of education, has a much wider Kingston and Eastern Ontario and accompany application than that merely of the class room and of the teachers. The brightest and best young perience that Queen's continued to grow in the purposes of education, is the citizenship of a community. There is only one way of doing this. Kingston, or that we must support a policy particular geographical area. Now the plan as put Put the teaching profession upon such a basis finaninterest of the city of Toronto than of the account the vital interpretation of the word effiprovince as a whole.

ures to show how the Provincial University and not that of the highest benefit of the youth of educated girl. In those times teachers were plentiful serves the whole province. In attendance there this community.

nterest of the west and the east, then town in Northern Ontario will next be claiming a university for the north. And why not, where there is a north to compare with this west, or even before? It is that kind of talk by Toronto people that promotes a secession movement in Northern Ontario. Toronto is not the only part of the province that should have a place in the sun of higher education.

EDITORIAL NOTES.

Old St. Nicholas will have a hard job this year. It's only a few days until Christmas, and hose Russian Bolsheviks don't know what they want vet.

Sugar embargo, luxury tax—yes, the Meighen Government is just like the brave old Duke of York's army that marched right up the hill, turned around, and marched right down again.

When that earthquake occurred the other day, some superstitious people believed that it was an evil omen, and feared the end of this old world. But what's the use of being pessimistic. It may have been that Mother Earth fell a victim to that extremely contagious disease called the

Letters to the Editor

To the Editor of The London Advertiser:

With regard to the statement appearing in the Saturday (December 18) issue of your paper that a resolution to the effect that Mayor Little use his city's youth and let the plan be economical but only influence with the Provincial Government in asking that Harry Wray be removed from the position of the government employment bureau, allow us to To the Editor of The London Advertiser state that the resolution was not read to the meeting, and could, therefore, not be officially passed. The question was brought up at the meeting on December 16 and passed but it was later asked to labor bureau. be adjourned till Mr. Wray could be present to resent a defence on the charges made against him.

asked on Friday evening for proof of these statements, he could not do so, and in our opinion Mr. Wray is completely exonerated. (Signed) F. TUCKER, Vice-President.

H. Hilton, G. P. Clarke, J. Burdett, P. Johnston,

To the Editor of The London Advertiser: Relative to the letter of Ald. Watkinson re the firemen's holidays in London being one in seven to the violet." days, with pay, etc., one would think that they were naturally of a privileged class, and entitled To the Editor of The London Advertiser: to all kinds of benefits, simply because they are they as firemen should be upheld as a special class? What about our civic men who do actual manual labor on our waterworks system, hydro, sewers etc., and not to forget others of our working population should be taken to the people. of the city of London, both male and female, who work by the hour in various factories, etc, and when they are not working their pay stops. the distinction? A person who hires by the day, hour or year should be satisfied as to his or her agreement, and live up to it: whereas the firemen of the city of London, and admittedly of other ballots. Those who have the right to vote are other workers in the various spheres mentioned, and at less expense than building one large central are to be paid for all the time that they are away from their legitimate employment. Why should Ald. Watkinson champion one class more than another hourly workers. Are they, or have they, become the other sites. say no! Any time that they don't "punch the clock" monthly, so their money is there whether they are on duty or not. Not so the hourly workers. If they of architectural beauty. men are willing to offer as candidates, often at are not at work, there is no cash for them, so 7. The cost of building is now too expensive to the electors can do is to support them. If they through sickness to themselves or their families, to builders and laborers.

F. WAKEFIELD. 60 Hyla Street. THE COLLEGIATE QUESTION.

To the Editor of the London Advertiser: As one who is vitally interested in the general on the collegiate question.

There are two factors which the board of educa-Some of the friends of the University of this question, namely, those of efficiency and econinterpretation of this term. It will generally be This is a desperate line of argument to bol- accepted as true that the "unit system" in itself must necessarily permit of a greater measure of ciency. The same will be the case with Lon-don's university when properly financed and overwhelming majority of these pupils belong to them is a beacon to warn young people away from expanded. It will serve not only London, but what is generally known as the working class, and the teaching profession. this whole rich southwestern peninsula. Uni- therefore are the ones who are in greater need of What is the result? A shortage of 2,000 teachers versity education paid for by the whole province has to be distributed with some sort of fair-than those of an ordinary collegiate education. If ness among the people, and that can only be the "unk system," as planned, were to be adopted, the minister of education has considered the done, as experience both in this country and consider the position of those large numbers of matter intelligently, and suggests that the obvious in Great Britain shows, by decentralization.

Some Toronto writer argued recently that if Western and Queen's are to be helped in the last of the position of the castern sections of the city. With a new collegiate erected on the old site, the majority would be within walking distance. But not so if they should have to go to the proposed site. St. Thomas,

BERTHA ADKINS.

resent plans of the board are palpably inadequate Why discriminate against the working class east i favor of the bourgeois north and south? The board ollegiate to be built in the eastern part of the city when the requirements of the city demand." But urely these requirements at present exist, and it ogically follows from this circumstance that the lemands for a collegiate in the eastern part of the city are more urgent than for any other part. If the plan be worked out in such a way that it will afford the greatest possible advantage to the com schools in different parts of the city, which would of the board, then let their application of this factor

be consistent. Another plan has been suggested for solving the collegiate problem, and one which is worthy the consideration of the board (if they have not already considered it), and to which I shall only allude in concluding these observations. The plan would call for a central collegiate to be erected on the old site, sufficiently large to take care of the higher form pupils only. The first and second form pupils could e accommodated in strategically selected public schools in different parts of the city, which would be easily accessible to the children in these different sections. Such schools would require to be added o or reconstructed, as the case might be, and the necessary equipment installed, to carry on efficiently the work that has heretofore been done in the first two forms at a central collegiate. This plan would enable a larger number of schools to be utilized for preliminary high school education purposes, and therefore afford a wider advantage to the city's

In conclusion, Mr. Editor, whatever plan b adopted, let it be based upon that fundamental necessity of insuring the greatest possible measure of benefit to the greatest possible number of the in so far as such economy does not compromise the realization of this fundamental necessity.

We note by the 'Tiser that the Independen Labor Party, at its meeting on Sunday last, passed a "vote of confidence" in the workings of the local

The news came as a surprise for we were no aware that anyone had charged the I. I. P. with "lack" of confidence in the bureau. In fact, recent action among the unemployed veterans of the city led us to believe that the veterans thought that the I. L P. had too much "confidence" in the bureau. Therefore, why the "vote of confidence"? The poet has said: "To gild refined gold, to paint the lily, to add a perfume to the violet, is wasteful and

ridiculous excess. Yet, in spite of that, there are people who spent a lot of time in an attempt "to add a perfume FRED YOUNG.

As I am one of the taxpayers who will have to firemen in the citizens' employ. Does it follow that provide high school accommodation, I submit the following for constructive criticism:

1. I am in favor of decentralization for schools a well as for universities, and believe that the schools 2. I would suggest town planning and the selec tion of three sites, one in South London, one in

East London, and one in North London. 3. The preparation of artistic plans for buildings, with wings or additions to meet the requirements of a population of one hundred and fifty thousand. 4. Build one of these wings now for each school, municipalities, are to be raised above the equal of to meet present requirements. This could be done

5. Build an upper and middle school on the old site, as there would not for many years to come Today we have lots of unamployment among our be sufficient pupils to justify an upper school on

entitled to one day's holdday in seven paid for? I 6. High school plans should now be prepared to meet the requirements of the next fifty years, and they are losers. The firemen are paid bi-weekly or planned so that the main building and its additions on each site when completed would be a structure

why should the firemen draw money for nothing? erect main buildings, while the erection of wings ther workers, if away from their employment would meet present requirements and give work

do not, the way is opened for less desirable can are not entitled to money while away. Why should! On such an important question, when the cost of didates, who may happen to have a personal the same help to contribute to firemen's holflays, building is so high and the need of accommodation following, to get into office. In a very few days liking in some to stand in with a class who have future should be pursued.

T. J. MURPHY. London, December 20, 1920.

To the Editor of The London Advertiser:

A recent news item states that the U. F. O. Women have placed themselves on record as critics of the Hon. Mr. Grant, minister of education, befor the various offices, and then vote as their problem of education, I should like to offer through cause he has advocated higher salaries for teachers. the columns of your paper one or two observations. Doubtless the honorable minister is perfectly informed as to his duties, and is quite able to defend his position; but this rather remarkable point of tion has taken into consideration in dealing with view challenges consideration from all intelligent
